Graduate Research Assistantship in Computational Physics
North Dakota State University

The Department of Physics at North Dakota State University invites applications from outstanding students for a Graduate Research Assistantship in Computational Physics. The research will involve theoretical and simulation studies of macromolecular systems, including colloidal suspensions, nanoparticles, and polymer solutions. While working toward a Ph.D. or M.Sc. degree in Physics, the successful candidate will join an active soft matter group with opportunities for collaborations within the Materials & Nanotechnology program at NDSU. With a 12-month stipend of $18,000, plus health insurance and a tuition waiver, the position is available in fall 2013 or earlier. For further information, see `www.ndsu.edu/physics` and contact Dr. Alan Denton (alan.denton@ndsu.edu). Applications must be submitted to the NDSU Graduate School at `www.ndsu.edu/gradschool`. Review of applications will continue until the position is filled. NDSU is an Equal Opportunity employer and both an ADVANCE and a Carnegie Very High Research Activity institution.
