Mukund Sibi Named University Distinguished Professors

Professor Mukund Sibi has been honored as a University Distinguished Professor by President Joseph Chapman. This award recognizes outstanding achievements of high quality faculty. The professorship comes with a \$20,000 pay raise and \$5,000 annually to be used for academic teaching or research endeavors. Sibi joins six other professors from across the campus being honored by this new initiative. Distinguished Professors will be charged with recognizing up to two new professorships each year. Prof. Sibi also received the James A. Meier Professorship earlier this year.
