ECS 770

Environmental Law and Policy

Monday Evenings, 6-9 pm

Fall Semester 2007

Call number 12279

This course will be an introduction to major federal and state statutes and regulatory programs that govern environmental quality, pollution control and wildlife management, including legislative enactment, regulatory development, enforcement, federal/state relationship and judicial interpretation. The instructor, Tami Norgard, J.D., is a practicing lawyer in the field of Environmental Law, with experience at the Federal level in Washington D.C., and with teaching experience at the Law Schools of the University of Minnesota and University of North Dakota.
