

These charts are a reflection of the NDSU employee community. Within this document, there are charts displaying the breakdown of employees by race and gender across their bands (clerical, skilled crafts, etc.). At this time the 2000 band (faculty) is not represented in these charts. That information is being compiled and will be posted at a later date.

The data for these charts came from an IPEDS report ran on November 1, 2005.
