

# Graduate Research Assistantship

Agricultural and Biosystems Engineering/Machinery Systems Engineering/  
Precision Agriculture

## Description

A graduate research assistantship is available in the Department of Agricultural and Biosystems Engineering at North Dakota State University (NDSU) to perform applied research in the general area of Agricultural Machinery Systems Engineering/Precision Agriculture.

## Qualifications and Application Process

Interested students should have a minimum B.S. degree in agricultural engineering, agricultural and biosystems engineering or related fields. The person should be an US citizen, preferably North Dakota resident.

Screening of applicants will begin upon notification of your admittance to the Graduate Program in ABEN Department program and expressed interest in the assistantship. The student can start immediately. Benefits include a stipend and full tuition waiver. Applications for the Graduate program must be made on-line through the NDSU Graduate School at <http://www.ndsu.edu/gradschool>.
