

“Green Week 2009”

Green Week Movie Night – National Geographic’s “Human Footprint”

Monday, October 19, 2009 ~ Rose Room ~ 7:30pm-9:30pm

Ever wonder about the lifecycle of all the products we consume? From the seemingly mundane items to luxury items – all consume tons of energy from raw materials until they reach the end user and then move on to the dumpster. Ever wonder about this, come join us for a night of pizza and lemonade as we watch National Geographic’s documentary “Human Footprint”

Conspiracy Behind Greenwashing: Separating Facts From Fiction About Sustainability

Tuesday, October 20, 2009 ~ Hidatsa ~ Noon-1:00pm

“Green Jobs” “Green Planet/Earth” “Going Green” to mention a few – in the Media, Corporate America, Interest Groups. What is accurate? What is embellished? Got questions, concerns, doubts...? Join the panel discussion on the rave about “Green” and its new meaning.

Global Warming

Wednesday, October 21, 2009 ~ Meadow Room ~ Noon-1:00pm

Allan Ashworth Distinguished Professor of Geosciences

Global Warming – one of the most discussed topics of our time. Distinguished professor of Geosciences, Dr. Allan Ashworth will be speaking on Global Warming.

Additional information available Monday through Friday at the Green Week contact table in the Memorial Union – meet a representative from Community Agency, **Repower America** to learn more on how to take it forward.

Green Week 2009 brought to you by Student Activities Office, Student Environmental Advisory Council (SEAC), Environmental Conservation Sciences Graduate Student Association (ECSGSA) and Repower America
