IT'S HAPPENING AT STATE

MAY 6 2009

Published by the Office of the Vice President for University Relations.

President Chapman invites participation in commencement

Chapman

President Joseph A. Chapman is encouraging the NDSU community to participate in 2009 spring commencement. This year, for the first time, ceremonies are scheduled for two days. The graduate ceremony will be Friday, May 15, at 4 p.m., and the undergraduate ceremony will be Saturday, May 16, at 10 a.m. Both ceremonies are at the Fargodome.

"This is one of the most exciting days on our campus, a positive symbol of

individual success, family and community commitment and faculty and staff support," Chapman said in a letter to faculty and staff.

Faculty will march by academic rank and seniority. Faculty and staff with academic degrees who want to participate in the academic processional and the graduating classes will wear caps and gowns. If you need a cap and gown, contact Beverly Hirn at 1-7827.

Faculty marshal Tom Barnhart will arrange the processional. He will send additional instructions or you can find more information at www.ndsu.edu/registrar/commencement.

NDSU students prepare for unforgettable journey to Antigua

Weber

On May 17, 11 undergraduate students will travel to Antigua, Guatemala, in collaboration with The God's Child Project, a non-profit organization based in Bismarck, N.D. The students are traveling to Antigua as part of Sociology 379, the NDSU Service Seminar, and have met on a weekly basis for the past semester, which has enhanced their understanding of privilege, oppression, poverty and Guatemalan culture.

Mathers

Instructors Christina Weber and Angela Mathers hope to instill a sense of global citizenry in the students, and believe that experiencing the culture first hand is one of the best ways to deepen students' awareness of their global community. Students participating in the course are permitted to bring only the amount of personal items that will fit into a carry-on. Twenty-six pieces of

checked luggage will be filled with donated items students and area non-profits have collected.

Some students were unsure of their ability to pack everything needed into a backpack for an 11-day trip, but were eager to embrace the challenge. While in Guatemala, they will build homes, visit a malnutrition center, work at a homeless shelter and distribute clothing to individuals in need.

The service seminar has been offered as an undergraduate class since spring 2008. Students can apply for financial aid to offset the costs of the trip. "I believe that all students, regardless of financial circumstances, should have the opportunity to deepen their understanding of the world around them," Mathers said. "Through the service seminar, students are broadening their awareness and embarking on the personal journeys of a lifetime."

Students are still seeking donation materials to bring with them to Guatemala. Items needed include children's chewable vitamins, children's clothing, sweatshirts in men's size medium or smaller, and blankets. Drop off your donation items at the Volunteer Network in the Memorial Union before May 13. For more information or if you are interested in participating in next year's course, contact Mathers at angela.m.mathers@ndsu.edu.

NDSU www.ndsu.edu/itshappening

Summer hours announced

NDSU summer hours will begin Monday, May 18. Hours will be 7:30 a.m. to 4 p.m., with a 30-minute lunch break. Regular hours will resume Monday, Aug. 17.

Safe Zone Ally training set

A Safe Zone Ally training session is planned for Thursday, May 21, from 9 a.m. to 11 a.m. in the Memorial Union, Meadow Lark room. Advanced registration is not required.

Summer news and events

As information becomes available, news and event updates will be available at the "It's Happening at State" Web site www.ndsu.edu/itshappening.

Summer publication dates set for 'It's Happening at State'

Regular weekly publication of "It's Happening at State" will end following the May 13 issue. Summer editions are scheduled for June 17, July 15 and weekly publication is set to resume Aug. 26.

President Chapman awards endowed professorships

McCourt

President Joseph A. Chapman has awarded 2009-11 endowed professorships to Mark McCourt, professor of psychology; Mark Meister; associate professor of communication; and Mark Sheridan, professor of biological sciences. Each recipient was selected because of his excellent achievement in all three areas of teaching, research and service.

Meister

McCourt is the recipient of the Dale Hogoboom Endowed Professorship Award for 2009-11. The professorship carries with it a salary stipend of \$5,000 for each of the next two years and \$1,300, also for two years, for expenditures related to academic endeavors.

Sheridan

Meister is the recipient of the Walter F. and Verna Gehrts Endowed Professorship Award. The Gehrts Endowed Professorship carries with it a salary stipend of \$5,000 for each of the next two years and \$1,300, also for two years, for expenditures related to academic endeavors.

Sheridan is the recipient of the Jordan A. Engberg Endowed Professorship Award for 2009-11. The professorship carries with it a salary stipend of \$5,000 for each of the next two years and \$2,000 also for two years, for expenditures related to academic endeavors.

Chapman said that all three professors were richly deserving of their award, noting that receiving the professorship is an indication of the highest esteem in which the recipient is held by his colleagues and the institution.

Japanese feed team visits Northern Crops Institute

A 10-member Japanese Feed Industry Distiller's Dried Grains with Solubles Pelleting Team attended a short course at Northern Crops Institute April 20-24. The course, "Distiller's Dried Grains with Solubles: Nutrition, Use and Feed Manufacturing," taught participants how to incorporate distiller's dried grains with solubles, a co-product of ethanol production, into high-quality pelleted feed for poultry, swine, beef, dairy and aquaculture.

Team members represent companies utilizing 80 percent of distiller's dried grains with solubles imported by Japan, according to the U.S. Grains Council that sponsored the team. Japan imported 198,000 metric tons of U.S. distiller's dried grains with solubles in 2008, an increase of 114,000 tons from 2007, according to U.S. Department of Agriculture's Foreign Agricultural Service.

Kim Koch, Northern Crops Institute Feed Production Center manager, coordinated and lectured in the course. Koch also led the team during feed pelleting instruction and demonstrations at the institute's feed center.

"Japan is one of the largest importers of distiller's dried grains with solubles in Asia, and judging from the interest this team had for livestock nutrition and production information when using distiller's dried grains with solubles, there is every indication that those imports will increase," says Koch. "The training this team received in nutrition, production management and feed manufacturing using distiller's dried grains with solubles will enable them to promote the many positive benefits." Hiroko Sakashita, associate director of the U.S. Grains Council in Tokyo, escorted the team. The U.S. Grains Council also brought a distiller's dried grains with solubles feed team to Northern Crops Institute in 2008.

"Since the members have been studying the production of pellets with distiller's dried grains with solubles at their own companies, this workshop contributes to their development of better pellets with a higher inclusion of distiller's dried grains with solubles. This will ultimately invite further growth in the consumption of U.S. distiller's dried grains with solubles in the Japanese market," says Sakashita.

Guest speakers included Sally Noll, University of Minnesota; Mark Whitney, University of Minnesota Extension Service; Vernon Anderson, NDSU Research Extension Center; and Kurt Rosenrater, U.S. Department of Agriculture-Agricultural Research Service, Brookings, S.D.

Extension provides Swine Flu information

The national Extension Disaster Education Network is providing an overview of swine flu information and links to Centers for Disease Control and Prevention, U.S. Department of Agriculture, World Health Organization and other resources. Go to the NDSU Extension Service page at www.ag.ndsu.edu/extension and click on Swine Flu Information.

The NDSU Extension Service through the Extension Disaster Education Network also has training programs on pandemic preparedness for businesses and for faith-based organizations, and links to information from other land-grant universities.

NDSU revises 'Replanting or Late Planting Crops Publication'

The NDSU Extension Service has issued a revised version of the publication "Replanting or Late Planting Crops." It is available from county Extension service offices or on the Web site at www.ag.ndsu.edu/pubs/crops.html.

The publication was revised by Gregory Endres, area Extension cropping systems specialist; Hans Kandel, Extension agronomist of broadleaf crops; and Joel Ransom, Extension agronomist of grass crops.

The publication covers crop replanting decisions and provides relevant information on delayed crop planting. Two tables in the publication give expected yield reductions of common crops based on NDSU research when planting after mid and late May.

DIVERSITY

President's Impact Award to be announced on May 8

The President's Diversity Council Impact Award recipients will be announced during the spring induction ceremony for the Tapestry of Diversity Talents on Friday, May 8, at noon in the Memorial Union Century Theater. The campus community is invited to attend this ceremony and stay for the reception to follow in Butte Lounge.

The Impact Award was created in 2007 to recognize individuals, groups and units that have demonstrated a significant contribution to advancing diversity as related to the President's Diversity Council Strategic Plan for Diversity, Equity and Community.

Previous award recipients have engaged in positive interactions with others, respecting and valuing differences in backgrounds and points of view. The criteria for selection for the Impact Award include a commitment to the spirit of diversity; leadership through positive interaction among persons of different backgrounds and identities; and behavior that illustrates commitment to inclusion of persons within the institution who are members of traditionally under-represented groups.

Sandra Holbrook received the award in 2007 and NDSU FORWARD received last year's award.

Several nominations were received this year and after careful review by the selection committee, one was chosen to receive the 2009 Impact Award. In addition to receiving a plaque to acknowledge the recipient's award, the person or entity receiving this award will have the opportunity to designate a charity to receive a \$500 cash award.

For more information about the President's Diversity Council Impact Award, contact the Office of Equity, Diversity and Global Outreach at 1-7708.

Campus reminded to attend FORWARD presentations

All members of the NDSU community are invited to attend a research presentation by Toni Schmader, associate professor of psychology at the University of Arizona, on Friday, May 8, at 9 a.m. in the Memorial Union Century Theater. Schmader will present "No Stigmatized Child Left Behind: Understanding and Reducing the Effects that Stereotypes Have on Academic Performance."

The presentation is open to the public. Refreshments will be served after the presentation. An abstract of Schmader's research is available at www.ndsu.edu/forward.

Schmader also will hold a noon workshop titled "The Science of Unconscious Bias," for faculty and administrators. Separate discussions with academic administrators and faculty will follow the workshop.

PEOPLE

Goodyear receives United Way Campaign Coordinator award

Goodyear

Char Goodyear, assistant to the vice president for university relations, was named the United Way of Cass-Clay 2008 Outstanding Employee Campaign Coordinator of the Year for institutions or businesses with more than 1,500 employees. Goodyear, who coordinates NDSU's United Way campaign, was recognized during the organization's annual meeting and recognition luncheon on April 28.

The recently completed campus campaign reached a new level, surpassing \$125,000 in gifts and pledges from faculty and staff.

"Char has demonstrated an exceptional ability to organize, energize and educate faculty, students and staff for this important community activity," NDSU President Joseph A. Chapman wrote in a letter of nomination. "Char's commitment to United Way is clearly evident. Her attention to detail and an eager willingness to answer countless questions are testimony to her caring nature and strong professionalism."

"I am truly honored," Goodyear said. "I especially want to thank the members of the NDSU United Way Campaign Committee for all their hard work to make our campaign a success, and to President Chapman for nominating me. This recognition came as a complete surprise, and I'm delighted to receive the award."

Judy Green, United Way of Cass-Clay president, said, "Char has been a gift and a blessing to this community. She clearly is a testament to someone who inspires hope and creates opportunities for a better tomorrow."

The overall campaign for the United Way of Cass-Clay surpassed its \$4.7 million goal. For more information about United Way, visit www.uwcc.net.

Interior design student wins national competition

Knott

Lindsay Knott, a senior majoring in interior design with a business minor, was named a corporate student merit winner in the Source One Design Competition. Knott won the national design competition with a wall covering that was inspired by childhood games, which she says is a fun contrast to a corporate environment. She used a modern twist on the traditional games of marbles and jacks to create the whimsical, geometric pattern.

"It was very unexpected, but I was very excited when I found out," Knott said. "It was flattering to know that out of hundreds of designs, mine stood out. I give credit to our professor, Susan Ray-Degges, who encouraged all of us to enter, even though the odds seemed slim."

There were two categories in the competition. Hospitality design included entries for places like restaurants and hotels. *cont.*

Corporate design included entries for offices. Award-winning designers Bob Lehrmitt and Sharon Drinkwine of Lehrmitt Associates selected the winning entries based on design innovation, aesthetics, originality and suitability for intended use.

Entering the competition last fall, Knott competed with students from the University of Texas at Arlington; The Virginia Polytechnic Institute and State University; Louisiana State University in Baton Rouge, La.; and Scottsdale Community College in Scottsdale, Ariz.

Source One is one of the most specific commercial wall coverings in the United States. For more information on Source One, go to www.sourceonewallcovering.com.

Knott, originally from Raymond, Minn., is expected to graduate this May. She plans to move to Minneapolis/St. Paul to find a job.

Gunkelman Award nominees have been selected

A total of 20 faculty, staff and students have been nominated for the annual Mary McCannel Gunkelman Award. The annual award recognizes one NDSU student or employee who has made the most significant and unselfish contribution to creating a happy environment for NDSU students.

The honor will be presented during ceremonies scheduled for Tuesday, May 12, at 3 p.m. at the NDSU Alumni Center.

The nominees include Theresa Anderson, academic assistant in child development and family science; Kristen Behrens, admission counselor; Dawn Bjorgan, student office support in women's studies; Eileen Buringrud, administrative assistant in plant sciences; Patty Corwin, senior lecturer of sociology, anthropology and emergency management; Carol Cwiak, lecturer of sociology, anthropology and emergency management; Ed Deckard, professor of plant science; Marilyn Dowdy, administrative secretary in international programs; Tammy Erdmann, administrative secretary in fine arts; Elaine Hatzenbuehler, lecturer of geosciences; Joe Heilman, student body president; Pam Hommen, administrative assistant in university studies; Ronda Klubben, academic assistant in health, nutrition and exercise sciences; Kimberly Miller, scheduling coordinator in registration and records; James Moos, maintenance mechanic in agricultural and biosystems engineering; Gloria Nysveen, administrative secretary in nursing; Chukwuebuka Okoye, sophomore in civil engineering; Tessa Sisk, senior in exercise science; Kyle Slivnik, senior in landscape architecture; and JoAnn Swanson, grants auditor.

For further information, contact Nancy Mueller, committee chair, at 1-8379 or visit www.ndsu.nodak.edu/ndsu/gunkelman/index.shtml.

Danks receives national award for excellence in public health

Paavola surprised Danks on April 30, presenting her with the United States Public Health Service Excellence in Public Health Pharmacy Practice Award.

Ramona Danks, a double major in dietetics and pharmacy, received the United States Public Health Service Excellence in Public Health Pharmacy Practice Award. Rear Admiral (Ret.) Fred G. Paavola, NDSU alumnus and creator of the award, presented it to Danks on April 30.

During the summer of 2008, Danks worked at the Indian Health Service Pharmacy in New Town, N.D., where she practiced her skills as an intern pharmacist and effectively used her dietetics' degree to enhance her passion to practice total patient care for a growing patient population that is impacted by obesity, diabetes and cardiovascular disease.

Through her role as a student and president of the NDSU chapter of the American Pharmacists Association – Academy of Student Pharmacists, Danks enjoys the opportunity to encourage other students to be enthusiastic participants in the practice of pharmacy and get involved in the legislative process. "Ramona is straightforward and confident in her abilities. She is a good listener, extremely well organized, and understands the importance of delegation and collaboration prior to moving forward on projects," stated Wanda Roden, American Pharmacists Association-Academy of Student Pharmacists adviser.

Paavola, who serves as a representative of the United States Public Health Service, earned a pharmacy degree from NDSU in 1970. He received a 2002 honorary doctorate from NDSU and was a recipient of the NDSU Alumni Achievement Award. He also is a member of the Pharmacy National Advisory Board and the NDSU ROTC Wall of Fame.

Paavola has worked as a pharmacist in both chain and independent stores and many U.S. Army and U.S. Public Health Service facilities. He held numerous leadership positions throughout his career. He retired in 2000 as Chief Pharmacist Officer and Assistant Surgeon General for the U.S. Public Health Service with more than 30 years of service.

RESEARCH

Teaching and Research Awards

The NDSU Graduate School has announced the 2008-09 winners of the Teaching and Research Awards. The awards are presented annually in partnership with the colleges, which can select a winner in the areas of teaching and research. In honor and recognition of the graduate students' accomplishments, each student receives a cash award of \$1,000.

"These awards are an effort to recognize the outstanding contributions that graduate students make both in the classroom and in laboratories," David Wittrock, dean of the graduate school, said.

Teaching Awards

College of Agriculture, Food Systems, and Natural Resources
Bahadir Sezegen, Plant Sciences

College of Arts, Humanities and Social Sciences
Jennie Enger, English

College of Engineering and Architecture
Thunyalux Ratpukdi, Civil Engineering

College of Human Development and Education
Alexa Hanson, Human Development

College of Pharmacy, Nursing, and Allied Sciences
Shelly Graening, Nursing

College of Science and Mathematics
Bethany Kubik, Mathematics

Research Awards

College of Agriculture, Food Systems, and Natural Resources
Monika Michalak, Genomics and Bioinformatics

College of Arts, Humanities and Social Sciences
Jessica Jensen, Emergency Management

College of Engineering and Architecture
Benjamin Braaten, Electrical and Computer Engineering

College of Human Development and Education
Kara Muske, Human Development.

College of Pharmacy, Nursing, and Allied Sciences
Namrata Bhatnagar, Pharmaceutical Sciences

College of Science and Mathematics
Darci Block, Chemistry and Molecular Biology

Science, technology program receives federal grant

The NDSU Extension Service has been awarded a \$99,856 federal grant for a program to expose youth in rural areas to science, engineering and technology. The Children, Youth and Families at Risk Sustainable Community Program award is from the U.S. Department of Agriculture's Cooperative State Research, Education and Extension Service.

North Dakota's 4-H SET (Science, Engineering and Technology) for the Future Sustainable Community Project was one of 52 submitted for funding.

"NDSU Extension is thrilled to receive this award," says Sharon Query, 4-H youth development specialist. "It will greatly enhance our efforts to reach rural youth with state-of-the-art technology curriculum." Query, 4-H youth development specialist Linda Hauge and Brent Young, an assistant professor in NDSU's School of Education, are the project's principal investigators.

The program is designed to help North Dakota youth, particularly those in isolated rural school districts, keep pace with the rapid advancements in science, engineering and technology.

The target audience for this program is youth in grades three to six. The program will include mobile technology labs and a mentoring program. Extension staff, volunteers and local professionals will be trained in the use of the labs and science, engineering and technology curriculum.

Sessions are planned twice per month and will be held after school, on weekends or during summer day camps. The program also will include a service-learning component at each site.

Bjelde and Sanders publish 'snowbird' article

Bjelde

Kris Bjelde, assistant professor in child development and family science, and Greg Sanders, associate dean in the College of Human Development and Education, have written an article titled "Snowbird Intergenerational Family Relationships." The article was part of the research conducted for Bjelde's doctoral dissertation in the gerontology program at NDSU. Sanders was her major adviser. The article was accepted for publication in the journal *Activities, Adaptation and Aging*.

Sanders

This qualitative study examined the intergenerational family relationships of snowbirds. Interviews were conducted with 25 older adults (age 60+) from North Dakota, Minnesota, Iowa and Wisconsin. The destination states for the winter months included Arizona, Texas and Florida. According to Bjelde, snowbirds did not perceive their winter experience to have a negative impact on their families in any significant way. "The vast majority of snowbirds expressed satisfaction with how well they maintained their intergenerational ties and holiday traditions with family while they were away," Bjelde said. "Nearly all of the participants confirmed that they preferred to be back in their home state where they had family, when and if, their health deteriorated."

Bjelde concluded that as this trend in seasonal migration grows with the first wave of active and well-traveled baby boomers retiring, more research needs to focus on what the unique needs and issues are with this population of mobile older adults and how professionals (aging service providers, health care professionals and activity directors) who interact and serve this population can encourage and support strong family connections and assist them in maintaining an active, healthy and fulfilling lifestyle in the 21st century.

EVENTS

NDSU Opera Theatre to present 'Albert Herring'

NDSU Opera Theatre will present Benjamin Britten's "Albert Herring," a comic opera about the loss of innocence, on Friday, May 8, at 7:30 p.m. in Askanase Auditorium.

Albert is a gullible but virtuous lad, living in the English countryside at the turn of the 20th century. When it is discovered that there aren't any village girls pure enough to be crowned May Queen, Albert is chosen as May King. The ensuing antics, including a potentially scandalous night for Albert, are filled with freshness and charm.

Tickets are \$10 for adults and \$2 for students and are available at the NDSU Fine Arts Box Office, located at Music Education Room 115 on the NDSU campus or by calling 1-7969.

Safety training sessions set

The dates for Baseline Safety Training sessions are scheduled for Thursday, May 28, at 9 a.m. and Friday, May 29, at 3 p.m. All sessions will be held in the Memorial Union, Room of Nations.

Training is mandatory and must be completed on an annual basis. If you cannot attend the classes, you can complete the training at www.ndsu.nodak.edu/ndsu/police_safety/safety/Presentations.htm. At the end of the training, submit the short quiz to the Safety Office as proof of your compliance.

For more information, contact Jennifer Baker, loss control and claims specialist, at jennifer.baker@ndsu.edu.

NDSU community invited to Lynn Miller Benefit

Members of the NDSU community are invited to a benefit and auction for Lynn Miller on Saturday, May 16. A sloppy joe dinner is set for 4 p.m. to 6 p.m. at St. John Lutheran Church, 1710 5th St. S., Fargo. An auction and dance will begin at 7 p.m. and go until 1 a.m. at O'Kelly's, 3800 Main Ave., Fargo.

Miller had a stroke on Nov. 16. She is the wife of Jason Miller, NDSU strength and conditioning coach. She is a speech therapist for Moorhead Public Schools.

Miller's initial medical care, including time spent in the intensive care unit at the University of Minnesota Children's Hospital, and future surgeries and rehabilitation have placed financial stress on the family.

For more information, contact Jane Holtz at (701) 866-8085 or Kathy Flagtwet (701) 293-0783. Checks can be made payable to the Lynn Miller Trust Fund through Cornerstone Bank, 2551 45th St. S., Fargo, ND 58104.

Taylor announces completion of 2009 football schedule

Taylor

NDSU director of athletics Gene Taylor has announced the completion of the 2009 football schedule. The Bison will have an 11-game schedule with five home dates in the Fargodome. NDSU opens at Iowa State University on Sept. 3 in Ames.

The Bison open Missouri Valley Football Conference play against Southern Illinois on Sept. 26 at 6 p.m. in Carbondale. NDSU hosts Illinois State University for Homecoming on Oct. 3 at 1 p.m., University of Northern Iowa on Oct. 10 at 6 p.m., Missouri State University for the Harvest Bowl on Oct. 24 at 6 p.m. and Youngstown State University on Nov. 21 at 6 p.m.

Other Missouri Valley Football road games include South Dakota State University for the Dakota Marker on Oct. 17 at 6 p.m., Western Illinois University on Oct. 31 at 1:05 p.m. and Indiana State University on Nov. 14 at 12:05 p.m.

NDSU averaged 18,032 spectators at six home dates in the Fargodome and placed sixth in the 2008 Division I Football Championship Subdivision attendance figures released by the NCAA.

The Bison have put together back-to-back 18,000-plus seasons. NDSU attracted a school record of 18,141 fans at five home dates in 2007. The football program has enjoyed seven sellouts during the past three seasons including a school record of 19,053 against SDSU in 2006. The Bison are 29-5 in the Fargodome during the past six years under head coach Craig Bohl.

NDSU completed the 2008 season with a 6-5 record including a 4-4 mark to tie for fourth place in the Missouri Valley Football Conference.

NDSU sponsors Performance Ram Test in Hettinger

NDSU will sponsor the 2009 Performance Ram Test at the Hettinger Research Extension Center. "The purpose of the test is to compare growth and carcass traits among ram lambs raised under a similar environment," says Christopher Schauer, Hettinger Research Extension Center director and animal scientist. "Consignors will be given information on average daily gain, rib-eye area and fat thickness data for each ram."

The 70-day testing period begins May 18 and concludes July 27. To be eligible, rams must be born between Jan. 15 and March 1. The entry fee for each ram is \$100 and consignors must be members of the North Dakota Lamb and Wool Producers Association.

An award will be given to the No.1 indexing ram in each breed. Rams placing in approximately the top two-thirds of each breed will be considered performance ram test certified.

The consignor and Hettinger Research Extension Center agreements, entry form and North Dakota Lamb and Wool Producers Association membership form are available for downloading at
