

# The Transformation of the New Zealand Grasslands

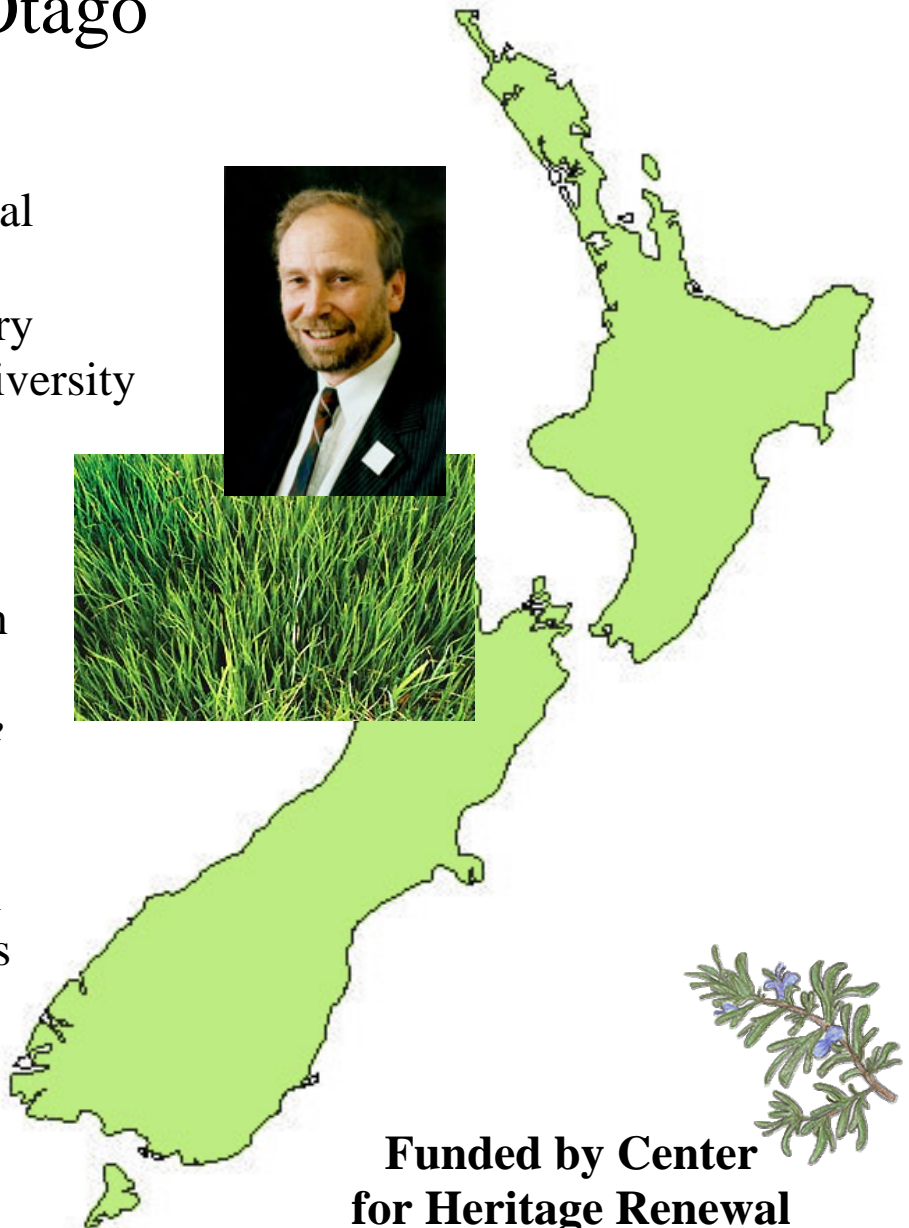

A Seminar by  
Professor Tom Brooking  
University of Otago

Hultz Hall 104  
3:00 Friday  
17 November

Sponsored by

- Department of Animal & Range Sciences
- Department of History  
North Dakota State University

From the southernmost university in the world, environmental historian Tom Brooking (author of *Lands for the People* and *The Heather and the Fern*) reports his Marsden grant research on the most momentous environmental change since European landfall in Aotearoa.
