Museum artifacts: In addition to video of Roger's feats, including video of the famed No. 61 in 1961, the museum displays items from every year and every aspect of Roger's athletic career, from high school to the pros; the displays will change semi-annually. Everything is authentic. McLaughlin was meticulous about the museum. When a Yankees uniform with the No. 9 arrived, McLaughlin recognized it was not an authentic uniform of the heavy wool that players wore in Maris's day. He sent it back, and the Yankees replaced it.
