

## **COLLEGE AWARDS FOR EXCELLENCE IN TEACHING, RESEARCH AND SERVICE**

The College of Science and Mathematics awards for teaching and research are presented annually to a faculty member in the College as recognition of that individual's outstanding contributions to his/her discipline. Nominations for either award can be made by any faculty member, student or alumnus of the College of Science and Mathematics. These awards include \$1000 for the individual as a personal gift and \$500 for university-related expenses (travel, books, etc.).

### *Teaching Award*

Criteria to be used in support of a nomination should include the following:

Outstanding performance in the classroom at the undergraduate or graduate level as indicated by knowledge, organization and presentation of the subject matter in an interesting and stimulating fashion, with continued impact or influence on the students. This needs to be documented by student and peer evaluations.

Significant contribution to his/her discipline as evidenced by publication or other written works relating to the educational process and/or recognition by educational groups in the state(s) and/or community.

Important contributions to the fulfillment of the mission or further development of the person's department, the College of Science and Mathematics or North Dakota State University.

### *Research Award*

Criteria to be used in support of a nomination should include the following:

Significant contributions to his or her scientific discipline as evidenced by publication(s), grants and/or recognition by the individual's professional organizations or community.

Important contributions to the fulfillment of the mission or further development of the person's department, the College of Science and Mathematics or North Dakota State University.

### *Service Award*

The service award is not given annually. It is given only when there is evidence of exceptional service to the department, the College of Science and Mathematics, and/or North Dakota State University. The award includes \$1000 for the individual as a personal gift.

The recipients of these awards will be determined by the College Nominations and Awards Committee and the Dean of the College of Science and Mathematics.

Nomination letters are limited to two pages and should be accompanied by supporting materials (e.g. cv, letters of support, reprints and other printed materials that may be contained in a teaching or research portfolio). The nominations should be sent to the Dean's Office by       date usually mid-March      .
