

North Dakota Angus University Feed-Out Program 2026

Do you use Angus sires in your operation?

- Would you like to know how your calves perform and grade when fed to a finish weight?
- Are you interested in the potential profitability available through retained ownership?

The North Dakota Angus Association
in partnership with the
NDSU Carrington Research Extension Center
announce the 15th Annual
**North Dakota Angus University
Feed-Out Program**

- The Carrington REC is currently accepting consignments of 900-1100 lb. steers to be delivered May 26-29.
- Participants in NDAU will receive periodic reports on calf performance as well as a final report on the overall performance, efficiency, and carcass traits for their calves.
- NDAA sponsors will offer up to \$1,500 in prizes to the top individual carcasses and groups.
