

Logan County Weed Board

301 Broadway | Napoleon, ND 58561 | 701-754-2504

Logan County Weed Board

Adam Schumacher, Chairman, Napoleon
Randy Ben, Vice Chairman, Streeter
Blanche Schumacher, Kintyre
Cora Stickel, Lehr
Vacant

CJ Pearce, Weed Control Officer, Linton
Josh Becker, NDSU Extension ANR Agent, Napoleon
Rebecca Hulme, Extension Admin Asst/Secretary, Napoleon

DATE: August 10, 2026

TO: LOGAN COUNTY LANDOWNERS

The Logan County Weed Board is offering the cost share of any chemicals recommended in the current *ND Weed Control Guide* for control of **leafy spurge, spotted knapweed, yellow toadflax, houndstongue, Canada thistle, wormwood, or palmer amaranth.**

- Pasture and rangeland reimbursement is available at **80%** of the chemical cost only.
- Roadside & right-of-way reimbursement is available at **100%** of the chemical cost only.
- Cost-share reimbursements apply to the amount of chemical used, not the amount **purchased**.
- Cost-share is not available for cropland, CRP, or labor for these weeds.
- All cost-share requests must be submitted during the same calendar year of the weed control application.
- **Limits of \$24/acre and \$5,000 total reimbursement per producer, per calendar year apply.**
- **Canada thistle and wormwood control is offered with a limit of \$500.**
- **Palmer Amaranth control will be cost shared at maximum \$500 for labor, not chemical control.**

Leafy spurge control: Consider *Plateau*, a non-restricted use chemical, so no pesticide certification is needed for purchase. In some cases, you may see control for 2-3 years before you have to spray again, although it is recommended to monitor and spray any regrowth that occurs. **The application rate for optimum fall control is 8-12 ounces of Plateau + 1-quart Methylated Seed Oil (MSO) adjuvant. (Try to spray early to mid September.)** This mixture is most effective at a high rate; however, you may see some injury to cool season grasses. The low rate often provides adequate control with reduced grass injury. Plateau use in non-cropland has two important benefits: minimal injury to desirable forage grasses and minimal injury to several desirable broadleaf species. The *ND Weed Control Guide* suggests using a rate of 1-2 pints Tordon and 1 quart 2,4-D per acre for leafy spurge control as an alternative to Plateau.

Spotted knapweed control: Consider Milestone, Tordon, 2,4-D.

Yellow toadflax control: Consider Tordon 22K (high rate) with Overdrive. Applying midsummer during flowering or in fall prior to a frost is recommended for the best control.

***** For rates and timing, consult the *ND Weed Control Guide*. *****

To apply for cost share, supply the following documentation:

- Enclosed two-sided application
- Copies of receipt(s) for chemical used
- FSA (or similar) map with sprayed areas highlighted

Mail to: NDSU Extension-Logan County
301 Broadway, Napoleon ND 58561

Deadline: **November 15, 2026**

*****Incomplete or tardy applications/documentation may cause reimbursement to be delayed or denied at the discretion of the Logan County Weed Board.*****

County commissions, North Dakota State University and U.S. Department of Agriculture cooperating.

Controlling noxious weeds is required by North Dakota Law. Our program has been successful in the past due to the concern and involvement of Logan County residents and landowners. The Weed Board hopes this can continue. Contact the NDSU Extension - Logan County office with questions at 701-754-2504, or email Joshua.Becker.3@ndsu.edu.

North Dakota Noxious Weeds

- **Absinth Wormwood** (*Artemisia absinthium* L.)
- **Canada Thistle** (*Cirsium arvense* (L.) Scop.)
- **Dalmatian Toadflax** (*Linaria genistifolia* spp. *dalmatica*)
- **Diffuse Knapweed** (*Centaurea diffusa* Lam.)
- **Houndstongue** (*Cynoglossum officinale* L.)
- **Leafy Spurge** (*Euphorbia esula* L.)
- **Musk Thistle** (*Carduus nutans* L.)
- **Palmer amaranth** (*Amaranthus palmeri*)
- **Purple Loosestrife** (*Lythrum salicaria* L., *Lythrum virgatum* L., and all cultivars)
- **Russian Knapweed** (*Centaurea repens* L.)
- **Saltcedar** (*Tamarisk* spp.)
- **Spotted Knapweed** (*Centaurea maculosa* Lam.)
- **Yellow Toadflax** (*Linaria vulgaris*)

Additional County Noxious Weed for Logan County: *Black Henbane*

Weed Guide

Palmer Amaranth (PA)

The Logan County Weed Board has approved up to \$500 cost share funds per landowner **for manual labor** in the hand removal of Palmer Amaranth (PA). Landowner must follow protocol:

1. Landowners should scout fields starting in late spring through summer and fall, especially before harvest.
2. **When a suspicious plant is found, contact:**
NDSU Extension - Logan County ANR Agent: 701-754-2504
Mark/flag the location and LEAVE THE PLANT IN PLACE to not spread seed.
It is easier to identify if it hasn't been pulled.
3. The county weed officer will work with the NDSU Extension ANR Agent to:
 - Gather photos and information to send to NDSU weed specialist(s) for confirmation or ruling out PA.
 - Develop an action plan with an NDSU specialist if PA is confirmed.
4. Landowners should hand pull, bag on site, and destroy confirmed PA plants.
5. PA plants should be burned or deeply buried to prevent movement of seed.
6. Landowners should work with their county weed control officer and continue to survey the field for a period of 3-5 years post removal to verify no additional PA is found.
7. **For \$500 cost share on hand pulling labor, submit complete cost-share application, receipt/evidence of labor paid, and FSA/similar map of area controlled. Replace chemical references on the application with man hours.**

Return this page with accompanying receipts and maps.

Logan County Weed Board Application for Cost Share

North Dakota state law requires the control of noxious weeds. The Logan County Weed Board offers cost share towards the **chemical cost** to control **leafy spurge, spotted knapweed, yellow toadflax, houndstongue, *wormwood, and *Canada thistle** at the rate of 80% for pasture and rangeland applications and 100% for roadside applications not to exceed \$24.00 per acre. A calendar year maximum reimbursement of \$5,000 per producer also applies. No cost share is available for labor, cropland, or CRP applications. **Palmer amaranth** cost share is for up to \$500 **toward labor**, not chemical control. **Canada thistle and wormwood control is offered only with a limit of \$500.**

Name: _____

Phone: _____

Address: _____

Cell Phone: _____

City, State: _____

Email: _____

Zip Code: _____

This application verifies that I, _____, sprayed to control the following weed(s) on _____.
Month/Day/Year

PART 1: In the spaces below, next to the noxious weed(s) that you attempted to control, please choose either *Pasture/Rangeland* or *Roadside*, and estimate the controlled acreage of each weed. (Whole numbers only; use "1 acre" for amounts less than 1 acre.) Only provide information for the weed control that you are requesting to be cost-shared.

EXAMPLE Leafy Spurge	12	☒ Pasture/Rangeland	0-000-00
Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range

☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range
☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range
☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range
☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range
☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range
☐	_____	_____	☐ Pasture/Rangeland	_____
	Noxious Weed	Est. Acres	☐ Roadside	Section-Township-Range

Attach additional sheet(s) if needed.

PART 2: Please fill in the **chemical name(s)** and **amount of each chemical USED** in the control of noxious weeds from the first page of application. Indicate the application rate used. Recommendations for rates are in the *ND Weed Control Guide*.

EXAMPLE

<u>Plateau</u>	<u>1</u>	<u>Gallon</u>	<u>10 oz. / acre</u>
Chemical Used	Amount USED	Unit (oz. pt. qt. gal.)	Application Rate

Chemical Used	Amount USED	Unit (oz. pt. qt. gal.)	Application Rate
---------------	----------------	----------------------------	------------------

Chemical Used	Amount	Unit	Application Rate
---------------	--------	------	------------------

Chemical Used	Amount	Unit	Application Rate
---------------	--------	------	------------------

Chemical Used	Amount	Unit	Application Rate
---------------	--------	------	------------------

Chemical Used	Amount	Unit	Application Rate
---------------	--------	------	------------------

I have included the following information:

- ☐ Completed, signed application – Front and Back
- ☐ Chemical receipt(s) for ALL chemical used and listed above
- ☐ FSA (or similar) map(s) – Sprayed areas must be highlighted

All documentation **must be received** in our office by **November 15, 2026**. Incomplete application/documentation may cause reimbursement to be delayed or denied at the discretion of the Logan County Weed Board.

My signature verifies that all of the information provided on this application is accurate and correct.

Applicant's signature: _____ ***Date:*** _____

Submit your application and supporting documentation:
