Commercial/Public Applicator and Dealer Certification Offerings

2026-2027

September 2026

North Dakota Pesticide Certificate Holders with April 1, 2027 Expirations:

RE: 2026-2027 Training Season

What follows lists our training events for 2026-2027. We have five different approaches for renewing certification(s).

1. Successfully completing exam(s) administered at NDSU Extension County Offices.
2. Our traditional **face-to-face** trainings.
3. Live trainings through web conferencing **hosted** at selected NDSU County Extension facilities.
4. Live trainings through **webinars** directly into homes, shops, or offices. The advantage is applicators do not have to travel, but they will need to have a reliable internet connection and a personal computer.
5. Finally, in our minor categories (Home Industrial and Institutional, Public Health, Vertebrate, and Wood Preservation), we will continue to have home-study correspondence trainings available from January 1 through April 1, 2027.

Please select the trainings related to the category (ies) you wish to renew. Aerial applicators, please note that you will receive an additional letter outlining the Tri-State Convention recertification options in the next few months. This is due to the Tri-State schedule not being fully finalized at the time of going to print with this schedule. However, the dates for the Tri-State Convention are set and applicators will need to plan to attend both days.

As we look ahead to 2027 and beyond, there are many changes we will have to adapt to, especially in the regulatory space, as well as the implementation of the new certification plan. I look forward to working with all of you to help you navigate these changes as effectively and as efficiently as possible.

We look forward to meeting your training needs. As always, if you have questions, please don't hesitate to reach out to the pesticide office.

Best wishes

Madeleine Smith

Pesticide Program Specialist
North Dakota State University Extension

Face to Face and Hosted Trainings

If you desire to participate in a training, in a meeting room, it is important you consider the following:

- If crowds make you uncomfortable, consider NOT participating in **face-to-face** trainings.
- **Hosted** trainings will have fewer numbers because they will be in smaller venues.

Communication

Given the unpredictable nature of the weather, please maintain up to date contact information with our office, especially an e-mail address. Without it, we will not be able to connect with you at short notice. Also, we can only e-mail changes to applicators/dealers that have registered for an event.

Another way you can stay in touch is by monitoring our website. We will post any changes at least 24 hours before the event. Look for: Weather Announcements. Our home page can be found at: <https://ndsupesticide.org>

Participating in a Webinar

If you select this means of training to complete your renewal, you need to be prepared to handle the technology. Here are some key points:

- We use ZOOM as our webinar delivery platform. We have been using it for several years with minimal problems. Thousands of applicators and dealers across the state have been successful in obtaining a certificate through this approach.
- You do not need a ZOOM account or special software.
- You will need a networked computer with audio and video capabilities. A microphone or camera is not required. You must have sufficient bandwidth to handle video streaming.

- A personal computer/tablet/iPad running Windows or IOS system is necessary. While ZOOM can be run from a networked device, smart phones are problematic due to bandwidth limitations and the inability to see presentations on a small screen. **DO NOT USE SMART PHONES.**
- If you request participation in a webinar, we will send you additional instructions on “how to participate.” This will be in a PDF document and in a narrated step by step video.
- You will need to register with ZOOM for the event so you can obtain login information. We will provide you an e-mail registration link once you have pre-registered with the NDSU Extension Pesticide Program. When you get the link, simply follow the instructions to obtain login information.
- Registering with ZOOM allows us to track your participation before, during, and after the webinar. We use this tracking to verify attendance and participation for the full length of the training.
- While participating, refrain from distractions and focus on the content of the training. Doing so will assure the U.S. Environmental Protection Agency, the North Dakota Department of Agriculture, and the general public that you are committed to using pesticides in a responsible manner.

Completing Exams at County Extension Offices

Renewal by examination will be offered. For 51 years NDSU County Extension Offices have provided local opportunities to take certification exams. While county offices are part of the NDSU Extension system, their operations are governed by county government. Thus, each office may have different requirements and procedures for issuing exams. Applicators/dealers seeking to take exams should order study materials. Once they have them, they should call ahead for an appointment and visit with county staff regarding local policies.

Training Registration

Pre-registration is **required** for all trainings. You can pre-register on-line and pay with a credit card at: <https://tinyurl.com/NDSUEXTPESTSTORE>

Please note, we cannot take registrations over the telephone.

You may still pre-register by mail and pay by check, use the form in this booklet or print it from our website at: <https://ndsupesticide.org>

Note, **you must attend the whole recertification training in order to renew your license. If you are unable to attend, or, are more than 15 minutes late, we will reschedule you to another training date of your choice.**

Accommodations

If you need accommodations, please contact us a minimum of two weeks in advance of the training date to allow time for us to obtain services.

Please note some services, such as sign language interpreters, can require much longer advanced notice to ensure services are available for a specific training event.

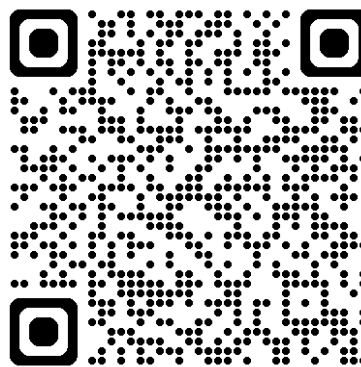

Minor Categories

No face to face, hosted, or webinar trainings are offered for Vertebrate and Wood Preservation categories. Simply order Home Study Renewal.

Expect the Unexpected

Inevitably, the weather, family, or professional obligations make renewing your certificate problematic. Our best advice is, get your certification requirements done sooner rather than later. On April 1, 2027 your certifications will expire. Waiting until March 31st to act may not be a good strategy.

ATTENTION AERIAL APPLICATORS

PLEASE NOTE: All aerial applicators need to attend **6.5 hours of training content**. PAASS will count for 4 hours. If you have attended PAASS in 2026 or 2025 and do not need to attend this year, an alternative 4 hours will be available as a combination of sessions on both days. Those attending PAASS only need to attend the general session (2.5 hours) **in addition** to PAASS (PAASS registration is separate and through NAAA). Once the schedule is finalized, aerial applicators will be sent a letter that outlines the schedule and options to complete recertification. Note, *there are three separate registrations*: PAASS, pesticide recertification, and the convention. Applicators are responsible for ensuring they have registered for each.

North Dakota Administrative Code 60-03-01-5.1(4) requires that all aerial applicators seeking recertification must show proof of attendance at a Professional Aerial Applicators Support System (PAASS) program at least once every three years before recertification may be issued.

Please note that the Safety Briefing sponsored by the North Dakota Aeronautics Commission is **not** a substitute for the PAASS program.

2026-2027 Commercial Pesticide Training Schedule Aerial/Ground Core Only Ag Pest, Right-of-Way, Research & Demonstration

Training Date	Location	Time
Feb. 17-18, 2027 Tri-State Aerial Applicators Convention	Fargo, ND , Delta Hotel 1635 42 nd ST SW, Fargo, ND	Please note: Times are tentative, please check the convention schedule at check-in. PAASS: Morning of February 17 th .

Preregistration Deadline Feb. 11, 2027

Preregistration is required, walk-in registrations will not be accepted

Register at: <https://tinyurl.com/NDSUEXTPESTSTORE>

The PAASS Program will be offered during the Tri-State Aerial Applicators Convention.

For more information and to register for the PAASS Program, please refer to the National Agricultural Aviation Association website at <https://education.agaviation.org/paass> OR please contact Scott Bretthauer at the National Agricultural Aviation Association at (202) 546-5722 or at sbretthauer@agaviation.org.

Applicant Acknowledgment of Proof of Financial Responsibility

NDCC 4.1-33-10 requires an applicant for a **commercial applicator certificate**, in the State of North Dakota, to provide proof of financial responsibility. NDCC 4.1-33-10 further requires that a commercial applicator must maintain financial responsibility in the amount of at least one hundred thousand dollars (\$100,000.00).

Financial responsibility may be demonstrated by a notarized letter from an officer of a financial institution or from a certified public accountant attesting to the existence of net assets equal to at least one hundred thousand dollars (\$100,000.00), a performance bond, or a general liability insurance policy.

I, the undersigned applicant, in lieu of providing proof of the above, attest and certify:

- (1) That I maintain financial responsibility in an amount of at least one hundred thousand dollars (\$100,000.00). More specifically, I possess net assets equal to at least one hundred thousand dollars, a performance bond, or a general liability insurance policy;
- (2) Agree, upon request by the North Dakota Agriculture Commissioner, to immediately provide further proof of compliance with NDCC 4.1-33-10 satisfactory to the Agriculture Commissioner; and,
- (3) Understand that civil and/or criminal sanctions may be imposed, if I fail to abide by the pesticide control laws and regulations of the State of North Dakota (NDCC 4.1-33-20).

Please check all that apply:

- ☐ Applicator ☐ Dealer ☐ Consultant
☐ I ONLY hold Ground Core and Right of Way
☐ I work for a city/state/government agency
