*Empathy, Dependency,
and Magic-
a Tale of Obligation*

CF Design was founded in 1998 by its principal, Cheryl Fosdick, with offices in Duluth Minnesota and Bayfield Wisconsin. During its existence, the firm has designed more than 100 new homes and remodels. Most of our work is regional and specific to the Midwest and the Upper Great Lakes, and is rural, suburban, and urban, with our new built work generally tending to reflect a contemporary aesthetic.

The works of the firm range in scope from very small custom furniture pieces and built-ins to family compounds and multiple building projects. We offer a full range of services interior and exterior and have a thorough understanding of materials and best practices, including energy efficient detailing.

We believe in design for everyone and in its capacity to make life better. We want to be as accessible as possible to as many people as possible. It's one of the reasons we donate teaching time in our grade schools- we want kids to bring the passion and desire to design home to everyday discussions.
