Organic Chemistry at NDSU - Be in Your Element

NDSU organic chemistry professors want you to succeed

Faculty at NDSU are dedicated to providing students with a comprehensive education to build a foundation of knowledge necessary for success in medicine, pharmacy, chemistry, biochemistry and other degree programs. Apart from being world class researchers, organic chemistry faculty at NDSU are also some of the most recognized leaders in innovative education. NDSU’s chemistry faculty have garnered some of the highest teaching awards given by the university.

NDSU Organic Chemistry Faculty

Prof. Greg Cook - 2006 College Teaching Award, 2011 Robert Odney Award for Excellence in Teaching

Prof. Siva Jayaraman - 2011 College Teaching Award, 2012 Peltier Award for Innovation in Teaching

Prof. Mukund Sibi - University Distinguished Professor, James Meier Professor

Prof. Wenfang Sun - 2009 Bison Ambassadors Apple Polisher Honoree, Gehrts Professor, Waldron Award

Prof. Pinjing Zhao - innovative teaching, one of the highest rated instructors by students

Chemistry faculty maintain on-line web resources accessible to students 24 hours a day. The NDSU Department of Chemistry and Biochemistry offers supplemental instruction in organic chemistry to help students outside of the classroom. Study sessions, review sessions and teaching assistants are readily available for students to make use of to learn and achieve in organic chemistry. Faculty are dedicated to providing the best educational experience possible.
