

QUEST Meeting with Professional Advisors
December 15, 2014
Presenters: Larry Peterson and Carolyn Schnell
18 attendees

Notes

Emphasize this is an “opportunity,” not a burden.

Emphasize that these skills are reinforced and integrated in the major.

Will transfer students need to take the FYE course? (Some schools that have a 3-credit FYE have a required course designed for transfer students.)

Don't our students need more, rather than less writing? Does this send the wrong message to them?

How about all the students who transfer majors?

We should retain the laboratory requirement.
