

QUEST Presentation
Student Affairs Council
February 6, 2015

Presenters: Larry Peterson and RaNelle Ingalls

How will this work for transfer students?

What do you mean by critical thinking?

Should Wellness be included?

Can stress-tolerance and resilience (adaptability) be included in PSR?

Do we have any existing courses in service learning? Could it be integrated more explicitly and clearly with existing courses?

Steve Winfrey is working on a leadership certificate with HDE (especially SOE). This may be our first example of a pathway option.

Can we recognize and support non-credit bearing/co-curricular experiences?

- How about the co-curricular transcript?
- Would an e-portfolio encourage student reflection and integrated learning?
- Can there be credit for student experiences in SA, like internships?
- How would faculty and departments learn about opportunities in SA they might link their courses with?
 - Could it be part of the GE packet for course approval?
