**Archery Indoor Circuit**

With the cancellation of our indoor archery season, we decided that enough of it had been completed to make placing awards to those who had an opportunity to participate at least two times. We used the top two scores for their individual and team placings. The one thing I can’t promise is prompt delivery of the awards. Since we are not in our offices, it might take awhile to get awards sent out.

**Training**

Of course, we had planned to conduct shotgun and black powder trainings in April. We will try to move them to fall depending on how soon the suspension of activities is lifted.

**Air Rifle State Championship**

The State 4-H Air Rifle Championship is moved to September 26.

**State 4-H Archery Championship**

The 2020 State 4-H Archery Championship held at the North Dakota 4-H Camp is still scheduled for June 12/13. We will make a decision on holding that according to information we receive in May. Registration is not up for that event and is on hold until we make that decision. Since we seem to be successful at slowing the initial outbreak, I suspect resuming activities might be delayed as well. Let’s hope for the best.

**Archery and Fishing Camp**

The 4-H camping staff will decide the strategy for conducting all or a partial camp season on May 1. We face several challenges with a modified camp season with the supply chain, counselors, and even scheduling with staff who may be conducting postponed events.
