Ross wants to purchase a new goose down jacket for the winter. After reading about jackets online, he has decided he needs a jacket containing “prime down” so he will stay warm while doing his early morning chores on the farm. Since he must do his chores rain or shine, Ross needs a jacket that is water resistant. He would also like zippered hand warmer pockets. Since he is usually the only one in the barn, Ross listens to music while doing chores, so he would like an interior gear pocket for his iPhone. His favorite color is red.
