GENERAL INFORMATION
The North Dakota 4-H Hippology contest provides an opportunity for youth enrolled in 4-H equine projects to demonstrate their knowledge of equine science related subject matter in a competitive setting where attitudes of friendliness and fairness prevail. Hippology is an activity that can make learning fun for 4-H members, by letting them exhibit their knowledge and understanding of equine science and husbandry. This is an excellent way to further involve 4-H’ers interested in equine activities. Youth build their knowledge of equine science, management, safety, welfare and ethics as they prepare for this contest. They then apply this knowledge in practical ways through Hippology contests and hands-on learning. Youth are tested on all aspects of the horse and equine industry. Competition in Hippology encourages 4-H members to develop a more complete knowledge of animals and related subjects and is an excellent way to develop self-confidence and excellent teamwork skills. This contest provides an educational program for all project members, including those who may not own a project animal. Teams compete in four (4) different phases:

1) Examination Phase
2) Station Phase
3) Judging Phase
4) Team Problem

The winning 4-H senior team will have a choice to represent North Dakota at the National 4-H Hippology Contest at the Western National Round Up 4-H Hippology in Denver, Colorado.

OBJECTIVES & OUTCOMES:
A. Stimulate learning in equine science and agricultural industry;
B. Youth develop positive interests and attitudes about equine science and related careers;
C. Youth gain a base of knowledge of equine science projects;
D. Youth will utilize skills and abilities to solve everyday situations;
E. Reward 4-H members for knowledge gained in a subject matter area;
F. Provide a competitive setting where attitudes of friendliness and fairness prevail;
G. Participants will process information, analyze complex problems and make informed decisions regarding current agricultural, environmental, equine science and equine industry issues;
