

Market Grade Factor Identification

Hard Red Spring Wheat

Contestant Number _____

Contestant Name _____ Score _____

Place an X in the box identifying the single market grade factor which most affects grade in each wheat sample number 1 to 10, respectively.

Grade Factor	SAMPLE NUMBER									
	1	2	3	4	5	6	7	8	9	10
No defects (U.S. No. 1)										
Damaged kernels – heat										
Damaged kernels – frost										
Damaged kernels – green										
Damaged kernels – sprout										
Blackpoint or Scab										
Foreign material										
Low test weight per bushel										
Broken kernels										
Contrasting wheat classes										
Treated-condemned										
Contamination-rodent/bird										
Inseparable stone										
Ergotty
