My North Dakota 4-H Experience

________ County 4-H is excited to participate in a statewide project that will showcase the impact that 4-H is making on our youth! 4-H'ers will be asked to complete a short, anonymous survey about their own 4-H experiences. The results of these surveys will help us improve the 4-H programming in our county and in all of North Dakota. We will be able to share our county results with our county commissioners, legislators, and others, showing them that 4-H is making a difference in ________ County!
