Evaluating the Impact of North Dakota 4-H
Youth Assent Oral Script

Today we are going to take a survey about your experiences in 4-H. Your parents have given their permission for you to participate, as long as it is okay with you.

This is not a test. There are no right or wrong answers. There are questions about your 4-H experiences, feelings, and opinions, so please answer all questions honestly. We would like to learn about your 4-H experiences, because we think that your answers will help us make the 4-H program better for you and for others.

If you don’t want to fill out the survey, you don’t have to. If there is a question you don’t want to answer, you can leave it blank. You can stop at any time and that is okay.

I will not look at your answers. I will only put them in an envelope and give them to our evaluation person. Since your name is not on your survey, no one will know who you are.

If you have any questions at any time, please raise your hand and someone will come to you.

Completing this survey means that you have decided to participate.
