

Curriculum Committee
E-meeting, August 30, 2013

From: Magel, Kenneth
Sent: Friday, August 30, 2013 1:18 PM
To: Goede, Diane; Montplaisir, Lisa; Liu, Guodong; Voronov, Andriy; Swenson, Orven; Routledge, Clay; Hyun, Seung Won
Cc: Littmann, Friedrich
Subject: RE: First Meeting of College Curriculum Committee

Diane Goede would like us to hold an e-meeting concerning these proposals instead of a live meeting. The deadline for our action appears to be very tight. I am sorry to have asked you to do an unnecessary Doodle poll, but let's try to handle these courses and degree proposal through email. Accordingly, please look the proposals over and email to all (perhaps a reply all to this message) if you have any questions or concerns. We'll take until the end of work on Tuesday for that. Then, starting Wednesday morning and ending by Friday noon, let's try to vote on the proposals by email to all members of the committee. Thank you.

Attached are several proposals for the Committee to consider. We were unable to arrange a face-to-face meeting. Accordingly, I would like to try to deal with these proposals electronically. I am expecting one more set of proposals this semester and hope to deal with them the same way.

Please look these proposals over. Note that the set of proposals might scroll in your email program. There should be seven proposals in all.

If you have any questions or concerns, please email them with Reply All between now and Thursday at 5 p.m. Starting Friday morning, if no substantive issues have been raised, we will start to vote by Reply All. I hope to complete the vote by Monday afternoon.

Thank you all.

Subject: RE: Third Fall EMeeting for College Curriculum Committee

Thank you all.

On another Committee matter, there are two proposals that I would like to just sign and not send to the entire Committee. One involves just a change in the prefix assigned to a course. The other uses Dean Wittrock's expedited procedure to take 16 700-level courses and make them 800-level courses. In either case, does anyone on the Committee think you need or want to see the proposal? I'll hold up until Monday on both of them in case anyone does want to have them distributed for a vote. Thank you. By the way, are there any other Departments planning to bring forward a proposal to transfer existing 700-level courses to 800-level?

Here are a couple of proposals for the College Curriculum Committee. I would like to try another electronic meeting on these two. I would like to entertain any questions or concerns to REplay All between now and Monday. Then starting Tuesday, let's vote on these two proposals, if there are no substantive problems. If any more proposals come in this semester, we will save them until Spring. Thank you.

Subject: Re: FW:

Hi Ken,

Has voting started on these? I haven't seen any email traffic related to them. I think you might have my email incorrect in your address book (adam.r.lewis.1 - there was a student with the same name when I was hired so I got a .1).

If you're recording votes at this time, I vote to approve both.

There is no time at which we can all meet live during the spring semester. Therefore, I guess we will have to meet again as an emeeting. Seven course proposals are attached. Please look these over carefully and ask any questions you have through Reply All by Friday , February 14, at noon. If there are no unanswered questions or concerns by then, we will start to vote Friday afternoon at noon and, hopefully, have everyone's vote by Tuesday at 4 p.m. Thank you.

Subject: RE: Spring Meeting for College Curriculum Committee Meeting

Bioc 723 will get sent back from UAA. They syllabus must follow the requirements of NDSU policy for example, listing meeting times, it has the outdated academic honesty statement and link, and is using a course number on syllabus before it is approved. This is a temporary course this semester and must be identified as they have approval for it; changes to courses, prereqs, etc. can only be implemented before registration for that semester has begun. It needs to go back to Chem.

Sorry I missed the deadline of noon today; the week has gotten away from me.

I will look at others now too.

Lisa

Subject: RE: Spring Meeting for College Curriculum Committee Meeting

How about if we act on the course pending an updated syllabus from Chemistry? IF the course is approved, it would not leave the College until the syllabus is updated to meet current Academic Affairs requirements. Dr. Liu, you should take the course back to your Department and ask for the syllabus to be updated ALONG THE LINES Dr. Montplaisir has described.. THANK YOU.

Cc: Littmann, Friedrich
Subject: Re: Spring Meeting for College Curriculum Committee Meeting

CSCI marked bulletin description change, but nothing is filled in for new bulletin description?
No syllabus
attached?

Math 761 will at least need a version of the syllabus that has the required elements on it. The link to syllabus guidelines are provided on the proposal form.

Math 785 syllabus not having required components.

Psyc 261: special needs and academic honesty statements are not the current ones approved by faculty senate.

Pending updated syllabi for these courses and the chem one in previous email, I vote to approve all.

Sorry to be so picky, but they will get sent back at the next level so easier to handle at this stage.

Subject: RE: Spring Meeting for College Curriculum Committee Meeting

It appears that CSCI only deletes prerequisites so Section B should not be checked (or it should be completed as Lisa noted). Also the submission date should be corrected. The Math forms are all missing the submission date.

I vote to approve all after Lisa's corrections are made.

No, Lisa. You are correct. Thank you for pointing out these problems. If one of your courses has a problem pointed out by Dr. Montplaisir, please make sure Diane Goede in the Dean's Office gets an updated, corrected syllabus. IF we approve the courses, they will still wait in the Dean's Office for the updated syllabi before going to Academic Affairs. Thank you all.
