

JOURNALISM

Journalism is one of four majors offered by the Department of Communication. Students are trained in both print and broadcast journalism. The program has a strong emphasis on cross-platform reporting and multi-media storytelling.

Why Choose a Major in the Department of Communication?

Our programs are designed to meet the needs and interests of today's students. We provide:

- **More time to explore your interests.** The introductory courses are the same for all four of our majors, making it possible to switch between our programs without extending your graduation timeline.
- **Personalized guidance on choosing a career.** Our Majors and Careers in Communication course helps you meet others in your major, learn more about possible careers, and navigate the program with your professional goals in mind.
- **Hands-on learning.** You'll have multiple ways to apply what you are learning through course projects, consulting for local organizations, and participating in national competitions.
- **Built-in communities.** You can connect with other students by joining any of the eight student organizations affiliated with our majors.
- **Field experience.** Our internship coordinator helps you acquire professional experience and a stronger sense of your future career.

Journalism Major

Students majoring in journalism may earn a Bachelor of Science degree (includes an approved minor) or a Bachelor of Arts degree (includes a modern language proficiency).

Admission to the Major

Students complete 18 credits of Pre-Communication courses with a minimum 3.00 GPA to be admitted to the professional program in journalism. These courses include COMM 110, COMM 112, COMM 114, COMM 212, COMM 220, and ENGL 120.

Internship Requirement

Internships offer practical experience for journalism students. Three credits (120 hours) of field experience are required for the major, and many students complete more than one internship. Students have interned with a variety of media companies in the Fargo-Moorhead area and beyond. Internships often lead to jobs.

Career Opportunities

Coursework in the journalism major prepares students for careers in news reporting, media writing, broadcast writing, and broadcast production. The courses emphasize written and oral communication skills and prepare students to communicate in meaningful and effective ways with a variety of audiences.

Extra-Curricular Activities

Students majoring in journalism are encouraged to gain additional experience by working with the Bison Information Network (television), KNDS-96.9 (radio), or The Spectrum (print). NDSU has two honoraries for top students majoring in a degree program offered by the Department of Communication. Pi Kappa Delta is a national honor fraternity for students involved in human communication activities. Lambda Pi Eta is a national honorary for communication majors with high academic achievement.

High School Preparation

A well-rounded high school education with experiences in high school music, forensics, theater, newspaper, or yearbook serves as good preparation for a major in journalism. Students with interests in science and art, business and service, and publicity and promotion will find a major in this department to be a good fit.

Scholarships

The Department of Communication awards a number of scholarships to students who excel in academics and who have demonstrated career potential. Applications are due by March 1. Visit the department website for details.

The Faculty

Faculty members in the Department of Communication are dedicated teachers, scholars, and practitioners who are committed to providing high-quality courses, hands-on learning experiences, and opportunities for undergraduate research. We encourage students who want to learn more about journalism to reach out via email or schedule an appointment via Navigate.

Journalism Plan of Study

Please note this is a sample plan of study and not an official curriculum. Actual student schedules for each semester will vary depending on start year, education goals, applicable transfer credit, and course availability. Students are encouraged to work with their academic advisor on a regular basis to review degree progress and customize an individual plan of study.
