Hello LIVE REAL Mentors,

Attached is an opinion article by Kevin A. Sabet provided by Nona Wood, Associate Director of Student Rights and Responsibilities, addressing the legalization of marijuana. While NDSU students’ marijuana usage is still about half the national average, the social acceptance of marijuana in other parts of the country is having a national impact. This is likely a subject we will be hearing more and more about in the coming years. Hopefully this article will help to keep you up to speed!

Thank you,

Casey

Casey Peterson

Director of Student Success Programs
