MISSION STATEMENT

The Criminal Justice Graduate Program in the Department of Criminal Justice and Political Science fosters the personal growth of individuals by creating an environment which nurtures intellectual, social and cultural development. As part of the wider North Dakota State University Community, the Criminal Justice Graduate Program endorses the value placed on People, Scholarship, the Idea of a University, and the Land-Grant Ideal.

The Criminal Justice Graduate Program, like the College of Arts, Humanities and Social Sciences, is committed to:

- Providing its students the highest quality of academic and technical preparation in an atmosphere that promotes intellectual vigor, critical inquiry, ethical citizenry, and creative decision-making requisite for professional success.

- Encouraging in its faculty exemplary scholarship of teaching, research, and service, leading to significant publications and outreach to the citizens of the state of North Dakota.

- Invigorating the tradition of outreach to the community through the discovery, analysis and dissemination of knowledge relevant to citizens and policy-makers regarding the issues of crime and criminal justice.

In its vision to realize human potential and achievements, the Criminal Justice Graduate Program as part of the College of Arts, Humanities and Social Sciences is guided by the qualities of creativity, ethical integrity, and mutual respect.
OBJECTIVES FOR GRADUATE STUDIES IN CRIMINAL JUSTICE

North Dakota State University offers both a Master of Science in Criminal Justice Administration and a Doctor of Philosophy degree in Criminal Justice, designed to train graduate students in a field that is increasingly marketable. These graduate programs permit students to engage in focused study of the problems of crime, crime control, and the criminal justice system while simultaneously developing a strong foundation in related areas of criminological theory, research methods, and administration.

The M.S. in Criminal Justice Administration consists of two tracks. The Applied Criminal Justice track will be geared to practicing professionals who wish to apply core principles of criminal justice in helping to shape the administration of criminal justice practice and policy. The second, traditional Criminology track includes coursework directed toward advanced grounding in the concepts, principles, theories, and research methodology of the field.

Graduates from the Master of Science in Criminal Justice Administration program will:
1) Be able to understand research findings, and assess the validity of those findings.
2) Be grounded in the theories of criminology, as this knowledge serves as the foundation of all aspects of the criminal justice system.
3) Have developed and utilized skills in qualitative and quantitative research methods.

Doctoral students are prepared to conduct research in the various areas of criminological theory, crime control, and correctional and police administration and to pursue teaching and/or research positions in academia or research positions within the criminal justice system itself. The curriculum will afford training to students in four areas: 1) criminological theory; 2) advanced research skills; 3) teaching in academia; and 4) specialization in one of three areas – Criminology, Corrections, and Policing.

In addition to the objectives for the Master’s degree program, graduates from the Ph.D. program will:
1) Be able to teach criminal justice at the college level.
2) Be able to market themselves as having expertise in one of the three topical fields, policing, corrections, or criminology.
3) Be producers of knowledge in the criminal justice field through conducting original research.
ADMISSION TO CRIMINAL JUSTICE GRADUATE PROGRAMS

Admission to the Graduate School

For admission to graduate study in either the M.S. or Ph.D. program in Criminal Justice, the applicant must first be admitted to the Graduate School. An application to the Graduate School may be obtained from:

North Dakota State University
The Graduate School
P.O. Box 5790
Fargo, ND 58105-5790
Telephone: (701)231-7033

This application is also available on-line at: http://www.ndsu.edu/gradschool/

For admission to the M.S., the applicant must submit the following to the Graduate School:

♦ Application for admission
♦ Personal statement (outlining the applicant’s rationale for pursuing a master’s degree and demonstrating the potential to succeed in the M.S. program)
♦ Non-refundable application fee
♦ Official transcripts of all previous undergraduate and graduate records
♦ Official Graduate Record Examination (GRE) scores from the Educational Testing Service.
♦ Three letters of recommendation from persons familiar with your academic achievements. The Department requires that at least one of these letters be written by an individual who can evaluate the applicant’s academic performance.

For admission to the Ph.D., the applicant must submit the following to the Graduate School:

♦ Application for admission
♦ Personal statement (outlining the applicant’s rationale for pursuing a Ph.D., specific plans for utilizing the degree, and demonstrating the potential to succeed in the Ph.D. program)
♦ Non-refundable application fee
♦ Official transcripts of all previous undergraduate and graduate records
♦ Three letters of recommendation from persons familiar with your academic achievements. The Department requires that at least 2 letters be written by academics or professors who can evaluate the applicant’s potential as a future researcher/instructor.
♦ Official Graduate Record Examination (GRE) scores from the Educational Testing Service.

The Department accepts M.S. applications for both Fall and Spring enrollments on a rolling basis. The Department accepts Ph.D. applications only for Fall enrollment and these must be received by April 1st. Faculty in the Criminal Justice program make recommendations on all applications, but the final admission decision is the responsibility of the Dean of the Graduate
School. Applicants are responsible for making sure that their applications are complete. No application will be reviewed until all materials have been submitted.

**Minimum Admission Requirements**

Applicants to the M.S. program are required to have completed an approved baccalaureate degree. Students are also required to have had one course in research methods, one course in statistics, and should document adequate background preparation or demonstrated potential in the field of Criminology or Criminal Justice.

For admission to full-standing in the M.S. program, students are required to achieve a minimum grade point average of 3.0 over their last 60 credit hours. Students not meeting these standards will be evaluated and possibly placed on conditional status. Students not meeting the above admission standards may be required to enroll in 6-10 graduate credit hours and achieve a cumulative GPA in these classes of 3.0 for full-standing admission into the program, or successfully complete other requirements as deemed appropriate by the faculty, prior to admission to full standing.

Students who enter the PhD program must have earned an approved Master’s degree in the field of Criminology or Criminal Justice; however, Master’s degrees in other related disciplines will be considered for admission to the doctoral program. In addition to the general Graduate School requirements, students will be required to have had one course in undergraduate social or behavioral theory, one course in research methods, and one course in statistics. Additionally, students should have adequate background preparation or demonstrated potential in the field of Criminology or Criminal Justice. For students entering with a Master’s degree, the admissions committee will decide on a case-by-case basis whether credits from the Master’s degree are transferable to the Ph.D. program. Additionally, applicants should submit their Master’s thesis (if applicable) to the graduate coordinator for review. The graduate coordinator will determine whether the research project is sufficient in scope and depth to warrant further supervised research.

Applicants to the Ph.D. program are required to take the Graduate Record Examination (GRE) and submit their undergraduate and/or graduate transcripts. For admission to full-standing, students are required to attain a combined minimum score on the GRE of 1,000 (verbal and quantitative) or 300 (new scoring system) and achieve a minimum grade point average of 3.0 over their last 60 credit hours.

**Admission to the Graduate Criminal Justice Program**

Admission to either the M.S. or Ph.D. program in Criminal Justice depends upon meeting the general Graduate School requirements and the departmental requirements. Admission is determined by the Graduate Admission Committee of the Department. This committee reserves the right to limit the number of applicants accepted to either program at any given time in response to the availability of departmental resources necessary for effectively operating the graduate programs in criminal justice. All applicants who have provided the required application materials, including completed application forms, the application fee, reasons for graduate study
statement, transcripts, any required educational credentialing, three completed letters of recommendation, and any appropriate test scores, will be notified of action taken on their request for admittance to the Graduate School. Admission of all graduate students requires approval by the Dean of the Graduate School.

**Provisional Admission**

Students not meeting the standards described above will be evaluated and possibly placed on provisional status. Students admitted on provisional status will be informed of the conditions of their admission and requirements for timely completion of those requirements. Students not meeting the admission standards may be required to enroll in 6-10 graduate credit hours and achieve a grade of “B” or better in all classes (other conditions may also apply). After completing all of the requirements, students admitted on provisional status will be evaluated by the Department to determine if they will be admitted to full-standing or advised to discontinue the program.

**International Student Admission**

North Dakota State University welcomes international students as part of the student body, and the Graduate School encourages applications from qualified students throughout the world. In addition to meeting the previously stated admission requirements, to qualify for admission in an advanced degree program, all international students must demonstrate proficiency in English and must provide evidence of adequate financial support for themselves and any dependents for the duration of their graduate program. Also, international students who have not attended a U.S. university or college must have their grade reports (educational credentials) evaluated by Educational Credential Evaluators, Inc. on the Course-by-Course (second level of evaluation) basis. An ECE, Inc. application may be obtained from the NDSU Graduate School, or you may contact Educational Credential Evaluators, Inc. in one of the following ways: www.ece.org (application and all information are available); 414-289-3400 (telephone); 414-289-3411 (fax); ECE, Inc., P.O. Box 514070, Milwaukee, Wisconsin 53203-3470.

English proficiency must be demonstrated prior to admission by obtaining a minimum score of 100 (ibT) on the Test of English as a Foreign Language (TOEFL) or a score of 7 IELTS. To qualify for graduate assistantships applicants need a score of 114 TOEFL (ibT) or 8 IELTS. The test date must be within two years of the date of the application to the Graduate School. All application materials for international students must be received by the Graduate School prior to May 1st for Fall Semester and August 1st for the Spring Semester.

**Academic Advising**

Upon enrolling in either graduate program, new students should meet with the Graduate Coordinator to identify an appropriate selection of coursework for the first semester of graduate study. Also, within the first year of enrolling in the program, students should meet with the Graduate Coordinator to discuss their Plan of Study.
Plan of Study forms for the doctoral degree are simple but critical documents. These forms may be obtained from the Graduate School (http://www.ndsu.edu/gradschool/grad_forms.shtml) either online or in-person (2nd Floor of Old Main). The forms request a listing of all courses the student has taken, is taking, and plans to take to complete degree requirements. The form is signed by the student's advisor and supervisory committee members. No other form is required to specify planned courses, advisor or supervisory committee members. Finally, the forms require the signature of the Department Chair, the Dean of the College, and the Dean of the Graduate School.

The Plan of Study forms provide the backbone for the student's entire graduate program of study. Often students delay completing these forms for fear that changes may need to be made later. However, changes are easy with the appropriate form from the Graduate School. It is better to complete a Plan of Study form, get it on record and make changes later, than it is to delay its completion altogether. Students should complete the Doctoral Plan of Study by the end of the second year in the program. Masters students should submit the Plan of Study to the Graduate School by the end of the first year in the program.

**Graduate Student Rights and Responsibilities**

The Graduate School website provides a detailed description of graduate student rights and responsibilities at the following link:
https://bulletin.ndsu.edu/graduate/policies/

**Graduate Assistantships and Other Financial Aid**

Various types of financial assistance are available to graduate students in the Criminal Justice program, such as (but not limited to) student loans, scholarships and fellowships, graduate assistantships, graduate tuition waivers, and part-time employment opportunities both on and off campus.

The Department views the opportunity for graduate students to work on assistantships as a privilege afforded to promising students who have demonstrated potential for success in graduate studies. In addition, the Department views the awarding of assistantships as an investment in the potential success of the graduate student, both academically within the program and as a future professional. As such, additional employment outside the university/department is strongly discouraged, as such employment is likely to seriously detract from the student’s academic progress and interfere with the appropriate completion of the responsibilities related to the assistantship, especially in the case of full time (20 hours per week) assistantships.

The Department offers a number of graduate assistantships for well-qualified graduate students. Students who receive an assistantship are employed as either teaching or research assistants.

Teaching-related responsibilities may include, but are not limited to:
1) assisting in exam construction and proctoring
2) assisting in meeting student needs (e.g., answering questions and helping students
understand course materials)
3) grading short assignments and recording grades
4) setting up instructional media equipment

Research-related responsibilities may include, but are not limited to:
1) conducting a literature review
2) assisting with research design (e.g., sampling, instrument construction)
3) data collection, coding, and analysis
4) manuscript and/or technical report preparation, as deemed appropriate by the faculty member

Assistantship Award Policies and Procedures

All students, both continuing and newly accepted, are considered for funding on an annual basis. Students who are not admitted in full standing are typically not eligible for funding. Graduate assistantships will be awarded contingent upon the availability of funds. Evaluation criteria for the awarding of graduate assistantships include factors such as the number of graduate credits earned (if the applicant is already in the program), academic performance (graduate and/or undergraduate GPA), letters of recommendation and/or faculty input, and past performance as a graduate assistant (if applicable). Current and incoming graduate students who are interested in receiving assistantships must request them after acceptance into the program. These assistantships are competitive and may not be granted to all students. PhD students will have priority.

Returning students will be evaluated based upon their performance in the department, both academically and in terms of any past assistantship assignments. Funded students who fail to meet their assistantship obligations and/or who fail to make reasonable progress through the academic program risk having their assistantship revoked. Students with more than one C grade or any grade lower than a C (i.e., D or F) are not making adequate progress. No more than one grade of C will be allowed for the student to retain funding. Greater than one C grade during the student’s academic career and any grade lower than a C (i.e., D or F) means automatic, permanent loss of funding. Each semester, faculty supervising graduate assistants will be asked to evaluate the quality of work demonstrated by their graduate assistants.

At the time of appointment, the student will be provided with a letter of contract from the department specifically outlining each of the following areas of information, including 1) work responsibilities associated with the assistantship, 2) length of appointment, 3) who the student’s immediate supervisor is, 4) the amount of the compensation involved, including tuition remission, and 5) appropriate procedures for the student to lodge complaints or address grievances.

For individuals officially appointed as research or teaching assistants, tuition (both resident and nonresident) for all graduate credits is waived. Student activity fees are not waived. Students awarded assistantships in the Department receive a stipend. Assistantships are part-time employment and thus do not include fringe benefits (i.e., health coverage). A student receiving a
full time (20 hours per week) assistantship must take at least nine credits of graduate course work each semester.

Students may be given the opportunity to teach courses as a graduate instructor. In order to be eligible for consideration, a student generally must have a Master’s degree in Criminal Justice or a related area or a J.D. and must have completed HUM 702: Introduction to College Teaching. Exceptions to these requirements may be made at the discretion of the faculty, as Department needs dictate.

The following criteria influence the decision regarding which graduate students will be allowed to teach CJ courses:

1. Only doctoral students are considered for teaching their own class; exceptions may be made for teaching the CJ/POLS 325 research methods lab.

2. Student must be making adequate progress as defined on page 9.

3. Student must have taken and successfully completed the required teaching class.

4. Availability of classes

5. How much coursework the student has completed during tenure in program.

6. Priority is given to students who are soon graduating with their PhD, especially for the in-person classes.

All students interested in receiving an assistantship must submit an application to the Department by April 1st. See Graduate TA/RA link found on the Criminal Justice Graduate program website: http://www.ndsu.edu/cjps/criminal_justice/graduate_program/. While these applications are included in the assistantship decision-making process, individual faculty members reserve the right to hire graduate students for externally funded projects at their discretion, as well as the right to remove those students from the project for failure to adequately perform the duties required of the research assistantship, as outlined in the letter of contract.

**Graduate Assistants’ Rights and Responsibilities**

Graduate students involved in teaching (either as Teaching Assistants or as Graduate Student Instructors) are responsible for behaving in an ethical and otherwise appropriate manner at all times when dealing with their students. The nature of undergraduate instruction is such that care must be taken at all times in dealing with students so that even the potential perception of inappropriate behavior is avoided. Graduate students are responsible for being familiar with and adhering to the standards of behavior regarding appropriate interaction with students, outlined in relevant sections of the University and College of Arts, Humanities and Social Sciences’ Faculty Policy Manuals. In particular, graduate students involved in teaching activities should be familiar with NDSU Policy Manual Chapter 1 (Sections 150-169, regarding Employee Responsibilities/Activities), Chapter 3 (sections 320-329 and 330-339, regarding Responsibilities
REQUIREMENTS FOR THE ACCELERATED MASTER’S PROGRAM IN CRIMINAL JUSTICE

The Accelerated Master’s program allows exceptional undergraduate criminal justice students to complete their Master’s degree in three semesters beyond the Bachelor’s degree.

ADMISSION PROCESS:
Upon completion of 60 undergraduate credit hours, eligible Criminal Justice majors can apply to the Accelerated Master’s program. A minimum GPA of 3.5 for the Criminal Justice major, an overall cumulative GPA of 3.5, and successful completion of CJ 325 (Applied Research Methods) is required prior to admission to the program. Students may apply while enrolled in CJ 325, but must earn a minimum grade of “B” prior to beginning graduate coursework. Interested students may apply by completing an application on the NDSU graduate school website (www.ndsu.edu/graduateschool), requesting at least two letters of recommendation from faculty or instructors, and submitting a statement of intent explaining why the applicant wants to pursue a Master’s degree in Criminal Justice. Interested students should apply early in the criminal justice program as credits from completed 400 level courses cannot be retroactively applied to the Accelerated Master’s program.

COURSES:
Once admitted to the Accelerated Master’s program, students will take four 400/600 level courses (CJ 606 Crime and Delinquency; CJ 607 Deviant Behavior; CJ 660 Criminal Court System, and CJ 661 Corrections) to fulfill the requirements for their Bachelor’s degree in Criminal Justice and also receiving credit toward a Master’s degree in Criminal Justice. Students enrolling in these courses at the 600 level can expect additional reading and writing beyond expectations for students completing these courses for 400 level credit. Students are required to earn a minimum of a “B” in order for the course to count toward the Master’s degree. Failing to earn a “B” in any of the 400/600 cross-listed courses will be allowed one “re-take” of that course. Students receiving anything below a “B” in a retaking of a 400/600 level course will be removed from the program and will not be allowed to re-apply for admission into the Accelerated program or the traditional Master’s program. Transfer credits from courses completed at other universities are not accepted for the Accelerated Master’s program. Upon successful completion of the requirements for a baccalaureate degree, students will begin taking 700 level graduate courses.

POLICY PAPER/THESIS:
Students have a choice between writing a policy paper and a thesis with the former summarizing research evaluating a policy or practice of a student’s choosing while the latter is a description of original research with the guidance of a faculty advisor. Students who wish to pursue additional graduate studies are encouraged to participate in the thesis option. Additional information about the policy paper/thesis can be found in the criminal justice graduate handbook located on the NDSU Department of Criminal Justice and Political Science website (www.ndsu.edu/cjps).
SAMPLE CURRICULUM FOR ACCELERATED MASTER’S PROGRAM:

Year 1  
CJ 201 Introduction to Criminal Justice  
CJ 210 Introduction to Policing

Year 2  
**Fall semester:**  
CJ 230 Criminology & Criminal Law

*Apply to the Criminal Justice professional program upon completion of 45 credit hours

Year 2  
**Spring semester:**  
CJ/POLS 325 Applied Research Methods  
CJ Elective course

*Apply to Accelerated Master’s Program upon completion of 60 credit hours

Year 3  
**Fall semester:**  
CJ 330 Criminal Law & Procedure

Year 3  
**Spring semester:**  
*CJ 460/660 Criminal Court System*  
*CJ 406/606 Crime and Delinquency*  
*CJ 407/607 Deviant Behavior*  
(3 credits)

Year 4  
**Fall semester:**  
*CJ 461/661 Corrections*  
*CJ 465 Women and Minorities in the Criminal Justice System*  
*CJ 489 Senior Capstone*

**Bachelor’s degree completed**

Year 4  
**Spring semester:**  
CJ 703 Advanced Criminology  
CJ 702 Program Evaluation  
(3 credits)

Year 5  
**Fall semester:**  
CJ 734 Advanced Criminal Justice Methods  
CJ 709 Criminal Justice Policy  
STATS 725 Applied Statistics  
(3 credits)

Year 5  
**Spring semester:**  
CJ 797 or 798 Thesis/Policy Paper  
(3 credits)

**Master’s degree completed: 30 credits**
THE MASTER’S DEGREE

General Requirements

The curricular structure of the M.S. program is listed below. Students will select one of two tracks: an **Applied Track** will be oriented to students who wish to apply criminal justice principles and research to a management or policy-based position in criminal justice. This track focuses on providing knowledge relevant for career advancement and the improvement of criminal justice system operations to practicing professionals (e.g., law enforcement officers, correctional directors). Students in this track are required to complete a policy-based paper as a final step in the course of study. The **Criminology Track** is open to students who may subsequently wish to pursue a Ph.D. in criminology or criminal justice or who are simply more interested in the behavioral and/or theoretical approaches in criminology. This track culminates in the writing of a Master’s Thesis, which will make an original contribution to knowledge in the field of criminal justice/criminology.

The curricular structure of the program for Master’s applicants entering the Applied track is:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foundation Courses</td>
<td>18 cr.</td>
</tr>
<tr>
<td>Corrections Elective</td>
<td>3 cr.</td>
</tr>
<tr>
<td>Policing Elective</td>
<td>3 cr.</td>
</tr>
<tr>
<td>Policy-Based Paper (CJ797)</td>
<td>6 cr.</td>
</tr>
</tbody>
</table>

**Total** 30 cr.

**Substitutions can be made for elective courses with the permission and approval of the Graduate Coordinator**

The curricular structure of the program for Master’s applicants entering the Criminology track is:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foundation Courses</td>
<td>18 cr.</td>
</tr>
<tr>
<td>Theory Courses</td>
<td>3 cr.</td>
</tr>
<tr>
<td>Elective Courses</td>
<td>3 cr.</td>
</tr>
<tr>
<td>Master’s Thesis (CJ798)</td>
<td>6 cr.</td>
</tr>
</tbody>
</table>

**Total** 30 cr.

**Substitutions can be made for elective courses with the permission and approval of the Graduate Coordinator**
All students are required to achieve a grade of “B” or better in all courses. Nine credits per semester are considered a full-time graduate load. Full-time graduate assistants (20 hours/week) are expected to maintain a full-time course load. Any graduate assistant wishing to register for more than 10 credits in a regular semester must secure the approval of their academic dean and the Dean of the Graduate School.

All requirements for the M.S. degree must be completed within a period of 10 consecutive years. Graduate credit for any course work that is more than 10 calendar years old at the time of graduation may not be used to satisfy degree requirements.

**M.S. “Applied” Track Curriculum Details**

**REQUIRED COURSES**

FOUNDATION COURSES (Student must complete all courses for a total of 18 credits)
- CJ703 (3) Advanced Criminology
- CJ709 (3) Criminal Justice Policy
- CJ702 (3) Program Evaluation
- Stat725 (3) Applied Statistics
- CJ 734 (3) Advanced Criminal Justice Methods
- CJ 759 (3) Advanced Research Design

**ELECTIVE COURSES**

(Student must complete one course from each of these areas for a total of 6 credits)

CORRECTIONS (3 Credits)
- CJ707 (3) Juvenile Corrections
- CJ 733 (3) Issues in Institutional Corrections
- CJ762 (3) Community Corrections
- CJ763 (3) Correctional Rehabilitation
- CJ764 (3) Punishment and Society

POLICING (3 Credits)
- CJ755 (3) Administrative Policing
- CJ760 (3) Police and Race Issues
- CJ761 (3) Police Effectiveness
- CJ754 (3) Police and Society
- CJ765 (3) Classics in Policing

TERMINAL PAPER
- CJ797 (6) Policy-based Paper
M.S. “Criminology” Track Curriculum Details

REQUIRED COURSES

FOUNDATION COURSES (Student must complete all courses for a total of 18 credits)

- CJ703 (3) Advanced Criminology
- CJ709 (3) Criminal Justice Policy
- CJ702 (3) Program Evaluation
- Stat725 (3) Applied Statistics
- CJ 734 (3) Advanced Criminal Justice Methods
- CJ 759 (3) Advanced Research Design

THEORY COURSES (Student must complete one course for a total of 3 credits)

- CJ721 (3) Individual Theories of Crime
- CJ722 (3) Structural Theories of Crime

ELECTIVE COURSES (Student must complete one of these courses for a total of 3 credits)

- CJ606 (3) Crime and Delinquency
- CJ750 (3) Violence
- CJ752 (3) Criminogenic Commodities
- CJ607 (3) Deviant Behavior
- CJ768 (3) Gender and Justice

TERMINAL PAPER

CJ798 (6) Master’s Thesis

Master’s Paper/Thesis

A written Master’s Paper or Thesis, as required by the respective M.S. tracks must be completed and orally presented to the student’s committee for defense. The Master’s Paper must show originality and demonstrate the student’s capacity to locate, digest and integrate relevant empirical and other information to create an effective policy analysis. Specifically, the policy paper should include the following items: (1) Introduction - present and discuss the policy featured in your paper; (2) Review existing research/literature on the policy; (3) Create a research design that describes how you could evaluate the efficacy or utility of the policy; (4) Justify your research design, and (5) Conclusions. The goal of the Master’s Thesis is to demonstrate the student’s ability for independent, original research productivity. In particular, the Thesis must embody results of original research focusing on a significant problem or issue in criminal justice which constitutes a definitive contribution to knowledge.
Paper/Thesis Requirements

General instructions on format are included in the North Dakota State University Graduate School Guidelines for the Preparation of Disquisitions, which is available at the Varsity Mart, and can be found at http://www.ndsu.edu/gradschool.

Paper/Thesis Committee

Each prospective candidate for the M.S. degree must select a Paper/Thesis advisor who will then assist in the selection of a three person advisory committee. The student, with the approval of the department chair, will select a major advisor. The advisor-student relationship must be mutually acceptable. The advisor will act as the chair of the student’s advisory committee. The advisor and student shall agree upon two additional committee members. One of these members must be from the faculty. The other member may be either a faculty member or a qualified off-campus expert in the field (off-campus experts must have a PhD and be approved by the student’s advisor and the Graduate Council). One committee member must be from outside the student’s academic college.

NOTE: Other qualified individuals may participate as committee members following approval by the graduate dean upon a recommendation accompanied by rationale and curriculum vitae by the appropriate department/program chair and academic dean.

The advisory committee agreed upon by the advisor and student and approved by the department/program chair and the academic dean shall be recommended to the Dean of the Graduate School for final approval. Each committee member shall have an equal vote in committee decisions.

The plan of study should be submitted to the Graduate School for approval not later than the term immediately after the supervisory committee is formed and must be filed in the Graduate School prior to scheduling of the preliminary oral examination. Revisions in the program of study must be approved by the student, advisory committee, department/program chair (when required) and Dean of the Graduate School. The graduate dean will officially notify the student, advisory committee, department/program chair, and the academic dean of all changes.

Oral Prospectus Hearing

After the advisory committee is approved the student will prepare a proposal for the conduct of the Master’s Paper/Thesis and attend an oral prospectus hearing. All committee members must be present at this hearing, which will encompass a demonstration of the interplay of student knowledge and their Paper/Thesis project and committee members will provide relevant feedback as the appropriate methods to be used and topical content for the Paper/Thesis project. This will constitute a defense of the proposal for the Paper/Thesis. After successful completion of this oral proposal defense, the student will be granted permission by the committee to begin work on the Paper/Thesis in line with the recommendations made as to the structure of this project. At least one academic semester must elapse between the oral prospectus hearing and the final oral examination of the Paper/Thesis.
Oral Defense Hearing

Students must be registered for at least one credit in the semester in which they plan to defend their Paper/Thesis and graduate. The graduate dean will formally notify the committee and the student when and where the examination has been scheduled. The examining committee shall consist of the student’s advisory committee. The Paper/Thesis in a near final form must be given to the committee members at least seven (7) days prior to the final examination.

Paper/Thesis Approval

At the conclusion of each oral examination, the examining committee shall record in writing its approval or disapproval of the candidate and file its report with the graduate dean. The committee’s decision filed on the Report of the Final Examination signifies that the student has been examined with respect to the knowledge required in the major area and that all course work has been satisfactorily completed. This form should be filed in the Graduate School within seven (7) days.

After the exam, the student incorporates into the Paper/Thesis corrections suggested at the oral examination. One copy of the Paper/Thesis, on regular paper, is presented to the Graduate School for editing and a format check by a disquisition editor in the Office of Graduate Studies.

After editorial, format, and graduate dean approval, five (5) final copies of the Paper/Thesis, on the required paper and bearing the disquisition approval form signed by the advisor, all other supervisory committee members, and the department chair, are to be presented, unbound, to the Office of Graduate Studies. With each copy, the candidate must submit an abstract not exceeding 350 words. These five (5) final copies must be accompanied by a receipt from the Business Office for the cost of the binding. Two (2) bound copies of the Paper/Thesis go to the University Library. The remaining three (3) bound copies are for the student, the student’s adviser, and the student’s department. Each candidate who passes the final examination must also submit a sixth copy of the Paper/Thesis, accompanied by an additional copy of the title page and an additional copy of the Abstract signed by the major adviser.

The student has one (1) year from the date of the final examination to deliver the six (6) final copies to the Office of Graduate Studies and complete all other degree requirements. Should the disquisition not be deposited as specified or all other degree requirements not be completed, the student must repeat the final examination. If a period of time two years or greater lapses before the final copies are submitted, the student must reapply to the Graduate School and must register for a minimum of two (2) credits.
**THE DOCTORAL DEGREE**

**General Requirements**

The curricular structure of the program is listed below for students entering the program with a master’s degree that is not related to criminal justice/criminology:

<table>
<thead>
<tr>
<th>Category</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Theory/Policy courses</td>
<td>9 cr.</td>
</tr>
<tr>
<td>Research skills</td>
<td>15 cr.</td>
</tr>
<tr>
<td>Substantive Area</td>
<td>18 cr.</td>
</tr>
<tr>
<td>Electives/Indiv. Study</td>
<td>36 cr.</td>
</tr>
<tr>
<td>Indiv. Study/Dissertation</td>
<td>12 cr.</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>90 cr.</strong></td>
</tr>
</tbody>
</table>

Students entering the program with an approved master’s degree are required to complete a minimum of 60 credit hours, and at least three (3) of the research skills courses must be completed at NDSU. The graduate committee will review the student’s transcript to determine whether the student has successfully completed any of the required courses in their master’s program. In the case that a course taken in the master’s program is sufficiently similar to required courses at NDSU and a student has successfully completed that course, the requirement may be waived. (For example, if a student received an “A” in a course similar to “Advanced Criminological Theory,” CJ703 may be waived as a requirement.) The student will be advised within their first semester of study as to whether any credits will be waived. Any credits waived in this manner must be completed as either electives or dissertation credits.

The curricular structure of the program for doctoral students entering with a Master’s degree in Criminal Justice/Criminology is as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Theory/Policy courses</td>
<td>9 cr.</td>
</tr>
<tr>
<td>Research skills</td>
<td>15 cr.</td>
</tr>
<tr>
<td>Substantive Area</td>
<td>18 cr.</td>
</tr>
<tr>
<td>Electives/Indiv. Study</td>
<td>15 cr.</td>
</tr>
<tr>
<td>Indiv. Study/Dissertation</td>
<td>1-12 cr.</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>60 cr.</strong></td>
</tr>
</tbody>
</table>
All students are required to achieve a grade of “B” or better in all courses. Nine credits per semester are considered a full-time graduate load. Full-time graduate assistants are expected to maintain a full-time course load. Any graduate assistant wishing to register for more than 10 credits in a regular semester must secure the approval of their academic dean and the Dean of the Graduate School.

All requirements for the PhD degree must be completed within a period of 10 consecutive years. Graduate credit for any course work, not including the Master’s degree that is more than 10 calendar years old at the time of the final oral examination may not be used to satisfy degree requirements.

**Ph.D. Curriculum Details**

**REQUIRED COURSES**

**THEORY/POLICY COURSES** (Students must complete all courses for a total of 9 credits)

<table>
<thead>

CORRECTIONS
CJ707 Juvenile Corrections
CJ733 Issues in Institutional Corrections
CJ762 Community Corrections
CJ763 Correctional Rehabilitation
CJ764 Punishment and Society

POLICING
CJ755 Administrative Policing
CJ760 Police and Race Issues
CJ761 Police Effectiveness
CJ754 Police and Society
CJ765 Classics in Policing

ELECTIVE COURSES
Students are also required to complete 15 credits of elective courses. The following courses are examples of electives that may be taken. Students should consult with their advisor as to other potentially appropriate electives.

CJ768 Gender and Justice
CDFS650 Adolescent Development
Psych640 Experimental Methods
Psych670 Experimental Social Psychology
Stat660 Applied Survey Sampling
Soc700 Qualitative Methods
Stat 665 Meta-Analysis Methods

Comprehensive Examinations

The PhD comprehensive examinations are an integral part of the Ph.D. in Criminal Justice. They represent the part of the program that requires students to demonstrate their understanding of the central issues facing the discipline. They also require students to have formed their own positions on these issues, as well as to demonstrate that they have the ability to articulate and defend these positions. As such, they place an emphasis not only on what people know but also on how they can use what they know, and if they have developed an understanding of how what we know can be transformed through research, theory development, and action. The student is expected to demonstrate in the examinations their reasoned perspective on the literature in our field and their ability to integrate that literature to describe future developments.

For full-time students, comprehensive examinations (or paper comp option) should be completed no later than the end of the third year in the program for students entering the program with a Master’s degree that is not in criminal justice or criminology. For students entering with a master’s degree in criminal justice and/or criminology, preliminary examinations should be completed by the end of their second year in the program. Failure to do so may be seen as a
failure to make reasonable academic progress in the program and could result in denial of financial assistance or removal from the Ph.D. program altogether. Students who choose not to take the comprehensive exam will receive a “fail” each time that they do not take the exam. It is strongly recommended that students complete at least 80% of the relevant coursework in a particular area before taking that exam. However, students must remember that completion of these courses will not necessarily prepare them fully for the comprehensive exams (see “Preparation” below).

Comprehensive Exam Content

All Ph.D. students are required to complete two comprehensive examinations (one in Methods/Theory and one in Policing or Corrections) or one comprehensive exam in Methods/Theory and the comp paper option focused on Corrections or Policing.

The Theory/Methods examination includes the history of criminological theory, meanings of and trends in theory development, contemporary theories of crime and criminal behavior, research testing these theories, and applications of these theories to types of crime (e.g., drugs, violence, white collar crime, etc.) and groups of special interest (e.g., women, minorities, juveniles, and victims). In addition, this exam will require students to relate their knowledge of the methods commonly employed in criminological research, including both quantitative and qualitative methods and analytical techniques.

The Corrections examination generally covers topics including the administration of the correctional system, as well as the theory of and research on corrections, including prevention and treatment of criminal offenders, prediction of criminal behavior, and other responses by the criminal justice system to the problems posed by known or likely juvenile and/or adult offenders.

The Policing examination covers topics related to the administration, operation, theory, and research of law enforcement activities, including use of discretion, police and community issues, and the effectiveness of police activities on crime and other social problems. Students will be required to demonstrate their ability to design research on the most current police issues, as well as apply or create theories that help explain police behaviors.

Comprehensive Exam Administration

All examinations are given twice each year, generally on the second Friday and Saturday in February and the second Friday and Saturday in August. This schedule may vary depending on faculty availability, but every effort is made to keep these exams within this time frame and so there are six months between the exams. The exam will be administered from 9am – 2pm on Friday and Saturday. Students will be given several questions of which they will be required to answer four (two on Friday and two on Saturday). At each offering, the Department will designate a specific faculty member to proctor the exam process. Copies of past examinations will be available on the Department website and will be available to students to facilitate their understanding of the nature of the examinations and the expectations for their overall content.

All examinations must be word-processed. Students who elect to hand write their answers must leave the answers with the examiner at the end of the examination, then return to the Department on the next business day to key in the exact text they have handwritten during the examination.
Comprehensive Exam Preparation

Preparation for the Theory/Methods, Corrections, and Policing comprehensive examinations is facilitated by taking required and recommended courses. These courses are not required of students before taking exams but are offered as guides to the kinds of materials that should be covered during the preparation. It must be understood that completion of these courses is not all that needs to be done to prepare for comprehensive exams. In addition to satisfactory performance in course work, the students must develop their own positions and organize the literature in a way that leads them to be able to “profess” the discipline.

For the Theory/Methods examination, students should consider taking courses offered as part of the Criminological Theory track (Criminology, Delinquency, Individual Theories, Structural Theories, Criminogenic Commodities, and Violence). Courses in research and statistical methods will also be useful in preparing for this exam (Quantitative Methods, Qualitative Methods, Applied Statistics, Applied Regression Models, and Program Evaluation).

For the Corrections examination, students should consider taking classes in this track (Issues in Institutional Corrections, Community Corrections, Juvenile Corrections, and Correctional Rehabilitation). For the Policing examination, students should consider taking courses from the Policing track (Police and Society; Classics in Policing; Administrative Policing, Community Policing, Police Effectiveness, and Police and Race Issues). Again, it is important to note that successful completion of these courses is not all that needs to be done in terms of preparation for any of the comprehensive examinations.

In addition to coursework, students have access to suggested reading lists compiled by the faculty for each examination. As with coursework, these reading lists are designed to be study guides. In addition to the material on the reading lists, students are expected to keep up to date with current literature in the field and to find additional relevant materials.

Grading of Comprehensive Exams

Comprehensive examinations will be graded by at least three faculty members with full-time appointments in the Department. Each grader will grade each question “pass” or “fail” (faculty may also make a recommendation for or against a grade of “pass with distinction”). The Department Chair, or his or her designee, will tabulate scores by student in a matrix by de-identified graders. Each student will be allowed to review the matrix for their own examination, but not for other students. All examinations with 75% of the total possible score will pass. Those with less than 75% will fail.

Comprehensive Exam Failures
If a student fails a comprehensive examination, he or she must retake the exam at the next offering or face removal from the Ph.D. program. A student who fails a Comprehensive Examination will be responsible for meeting with a faculty member for advising about how to proceed in preparation for the second administration. A student who fails the same comprehensive examination twice shall be terminated from the Ph.D. program.

**Comprehensive Paper Option**

After passing the Methods/Theory comprehensive exam, doctoral students can choose to take their policing or corrections comprehensive exam in a classroom setting (similar to the administration of the Methods/Theory exam), or they can write a policing or corrections paper for publication in a peer-reviewed, scholarly journal. Graduate students are encouraged to discuss the paper comp option with their mentoring professor(s) and/or the Graduate Coordinator. Graduate students must inform the CJ Graduate Coordinator of their choice (in writing) no later than two weeks after receiving notification that they passed the Methods/Theory comp. After informing the Graduate Coordinator of their choice, graduate students cannot change their mind about their choice/decision.

Graduate students will have two months (from the date that they inform the CJ Graduate Coordinator of their choice) to choose a topic and data source(s) for the paper, and hold a meeting with either the policing or corrections comp committee to get formal approval of their topic and data source(s). Comp papers must be focused on topics directly related to corrections or policing (committee members will approve paper topics). Students need to provide each committee member with a written “plan of action” two weeks before the approval meeting. The “plan of action” should include a detailed description of the purpose of the paper, as well as any data/data sources and analytic technique(s) that will be used for the completion of the paper. The “plan of action” should also identify the journal to which the paper will be submitted upon completion. If students choose to collect their own data, they need to seek IRB approval immediately following approval of the topic by the comp committee. If students want to use existing data sources, they must provide the committee with written permission from the person or group who owns the data. Exceptions to this rule would include data from the Uniform Crime Report, Census, ICPSR and any other data that is accessible to the public on the Internet. The data source(s) used for this paper must be different from the data source(s) that will be used for the dissertation. If the “plan of action” is not acceptable to the committee, the student must make appropriate changes within three weeks of the initial meeting. If the “plan of action” is still not acceptable to the committee the second time they review it, the student will receive a “fail” for the comp paper.

The paper must be solo-authored by the graduate student who has written the paper. Graduate students who choose the paper comp option cannot seek/receive help or guidance on the paper from faculty or staff (both inside and outside of the department and university) or from fellow graduate students. If graduate students seek outside help from anyone, they will receive a “fail” for the paper.
Students must have their paper completed and reviewed by the comp committee no later than nine months from the date that they informed the Graduate Coordinator of their choice. If this does not happen by the nine-month deadline, it will count as a “fail” for the paper requirement. Comp papers will receive an “accept/pass”, “revise and resubmit” or “reject/fail”. In order to receive an “accept/pass”, “revise and resubmit” or “reject/fail” from the committee, two out of three committee members must vote to “accept/pass”, “revise and resubmit” or “reject/fail” the paper. Students will have three weeks to resubmit papers that receive a “revise and resubmit” from the committee. Graduate students are allowed to submit comp papers to the committee a second time if they receive a “reject/fail” on their first attempt. The second attempt at the comp paper includes another nine-month deadline (beginning the day after a paper has received a “reject/fail” grade from the committee). Comp committee members will provide written feedback on all papers submitted for review. Graduate students will be notified of the committee’s decision no later than two weeks after submitting their paper to the committee.

All comp papers must be submitted to the journal identified in the written “plan of action” no later than one week after the comp committee has issued an “accept/pass” grade for the paper. Written proof or an email receipt of submission of the paper to a journal is required to fulfill this step in the process. Submission of a paper to a peer-reviewed, scholarly journal is the last required step in the comp paper process. If this submission deadline is not met, the paper will receive a “fail” from the comp committee.

**Oral Prospectus Hearing**

Successful completion of these two exams will be followed by an oral prospectus hearing (preliminary oral exam). This hearing will encompass a demonstration of the interplay of student knowledge (theory/methods + substantive area) and their dissertation project. This will constitute a defense of the proposal for the dissertation. After successful completion of the written and oral exams, the student will be formally admitted to candidacy for the Doctor of Philosophy degree. At least one academic semester must elapse between the preliminary oral examination and the final oral examination of the dissertation.

**Dissertation Guidance**

A written dissertation must be completed and orally presented to the student’s committee for defense. The dissertation must show originality and demonstrate the student’s capacity for independent research. It must embody results of original research focusing on a significant problem or issue in criminal justice which constitutes a definitive contribution to knowledge.

**Dissertation Requirements**

General instructions on format are included in the North Dakota State University Graduate School *Guidelines for the Preparation of Disquisitions*, which is available at the Varsity Mart, and can be found at [http://www.ndsu.edu/gradschool](http://www.ndsu.edu/gradschool).
Dissertation Committee

For each prospective candidate for the doctoral degree, an advisory committee consisting of at least four members will be appointed. The student, with the approval of the department chair, will select a major advisor. The advisor-student relationship must be mutually acceptable. The advisor will act as the chair of the student’s supervisory committee and will be in charge of the plan of study. The advisor and student shall agree upon two additional committee members. One of these members must be from the faculty. The other member may be either a faculty member or a qualified off-campus expert in the field (off-campus experts must have a PhD and be approved by the student’s advisor and the Graduate Council). A fourth committee member serves as a Graduate School appointee. This appointment is made by the graduate dean, but suggestions as to who the appointee might be are welcome and useful. One committee member must be from outside the student’s academic college. The Graduate School appointee may or may not be the outside committee member. The Graduate School appointee must be a Full Member of the NDSU Graduate Faculty.

NOTE: Other qualified individuals may participate as committee members following approval by the graduate dean upon a recommendation accompanied by rationale and curriculum vitae by the appropriate department/program chair and academic dean.

The advisory committee agreed upon by the advisor and student and approved by the department/program chair and the academic dean shall be recommended to the Dean of the Graduate School for final approval. Each committee member shall have an equal vote in committee decisions.

The plan of study should be submitted to the Graduate School for approval not later than the term immediately after the supervisory committee is formed and must be filed in the Graduate School prior to scheduling of the preliminary oral examination. Revisions in the program of study must be approved by the student, advisory committee, department/program chair (when required) and Dean of the Graduate School. The graduate dean will officially notify the student, advisory committee, department/program chair, and the academic dean of all changes.

Oral Defense Hearing

Students must be registered for at least one credit in the semester in which they plan to defend their dissertation and graduate. The graduate dean will formally notify the committee and the student when and where the examination has been scheduled. The examining committee shall consist of the student’s advisory committee. The dissertation in a near final form must be given to the committee members at least seven (7) days prior to the final examination.

Dissertation Approval

At the conclusion of each oral examination, the examining committee shall record in writing its approval or disapproval of the candidate and file its report with the graduate dean. The committee’s decision filed on the Report of the Final Examination signifies that the student has been examined with respect to the knowledge required in the major area and that all course work
has been satisfactorily completed. This form should be filed in the Graduate School within seven (7) days.

After the exam, the student incorporates into the dissertation corrections suggested at the oral examination. One copy of the dissertation, on regular paper, is presented to the Graduate School for editing and a format check by a disquisition editor in the Office of Graduate Studies.

After editorial, format, and graduate dean approval, five (5) final copies of the dissertation, on the required paper and bearing the disquisition approval form signed by the advisor, all other supervisory committee members, and the department chair, are to be presented, unbound, to the Office of Graduate Studies. With each copy, the candidate must submit an abstract not exceeding 350 words. These five (5) final copies must be accompanied by a receipt from the Business Office for the cost of the binding. Two (2) bound copies of the dissertation go to the University Library. The remaining three (3) bound copies are for the student, the student’s adviser, and the student’s department. Each candidate who passes the final examination must also submit a sixth copy of the dissertation, accompanied by an additional copy of the title page and an additional copy of the Abstract signed by the major adviser.

The student has one (1) year from the date of the final examination to deliver the six (6) final copies to the Office of Graduate Studies and complete all other degree requirements. Should the disquisition not be deposited as specified or all other degree requirements not be completed, the student must repeat the final examination. If a period of time two years or greater lapses before the final copies are submitted, the student must reapply to the Graduate School and must register for a minimum of two (2) credits.
APPENDIX A: FACULTY MEMBERS

Carol A. Archbold, Professor
Dr. Archbold has been a member of the NDSU faculty since 2005. Her research interests include women in policing, police misconduct, liability and accountability, and race and gender in the criminal justice system. She has published her research in a variety of peer-reviewed journals including: Police Quarterly, Policing: An International Journal of Police Strategies and Management, Race and Justice, Journal of Interpersonal Violence, Journal of Criminal Justice and the Journal of Crime and Justice. She has also authored/co-authored several books including: Police Accountability, Risk Management and Legal Advising (LFB Scholarly Publishing, New York, NY, 2004); Women and Policing in America: Classic and Contemporary Readings (with Dr. Dorothy Schulz and Dr. Kimberly Hassell, Aspen Publishing); Policing: A Text/Reader (Sage Publications); and The New World of Police Accountability, 2nd edition (with Dr. Samuel Walker, Sage Publications).

Sarah Boonstoppel, Assistant Professor
Dr. Boonstoppel has been a member of the NDSU faculty since 2014. Her central research interests include criminological theory, crime and the life course, and qualitative and mixed research methods. More specifically, her work examines whether and how role transitions in early young adulthood relate to continuity and change in offending. Recently, she has analyzed in-depth, qualitative interviews with formerly sanctioned at-risk young adults to examine the relationship between becoming a parent and the social and subjective changes implicated in the desistance process. She teaches criminological theory and juvenile delinquency.

Steven Briggs, Assistant Professor

Jeff Bumgarner, Professor & Dept. Head
Dr. Bumgarner’s joined the faculty in 2014. His research interests include policing, federal law enforcement, federal crime policy, and criminal justice administration. Recent and forthcoming publications include a book on federal law enforcement, a 2nd edition book on profiling in criminal justice, a book about criminal justice in Minnesota, and a book chapter relating to human trafficking. On-going research projects include a study of local police officer perceptions of federal law enforcement and an examination of police executive credentialing or certification.
**Andrew (AJ) Myer, Assistant Professor**

Dr. Myer has been an Assistant Professor in the Department of Criminal Justice and Political Science at North Dakota State University since 2014. He is also a Research Fellow with the University of Cincinnati Corrections Institute. He has taught courses on corrections, evidenced based correctional programming, and statistical and research methodologies. His research interests include effective correctional interventions, evidence based program evaluation, actuarial offender risk assessment practices, and macro-social research methods. Dr. Myer has conducted dozens of process and outcome evaluations of treatment courts (including adult and juvenile treatment courts, gender specific treatment courts, veteran’s courts, mental health courts, and drug courts). Dr. Myer has written over 50 technical reports on evidence based program evaluation. He has published in the *Journal of Quantitative Criminology, Criminal Justice Policy Review, Victims and Offenders, and the Journal of Crime and Justice*, and is co-editor of the book *The Origins of American Criminology*.

**Amy Stichman, Associate Professor**

Dr. Stichman is an Assistant Professor of Practice in Criminal Justice at North Dakota State University. She joined the faculty in 2007. Her previous publications have included evaluating sex offender laws, use of internships in criminal justice programs, evaluating correctional programs, and mentoring, workplace experiences, and tokenism in policing. Additionally, she has published research on correctional officers' bases of power and fear/risk of victimization, and sexual assault on campuses. She teaches courses in corrections, research methods and criminology.

**Kevin Thompson, Professor**

Dr. Thompson has been a member of the NDSU faculty since 1989. His research focuses on adolescent behavior disturbances. Some of his current research projects include 1) survey and experimental studies on how child maltreatment impacts adolescent behavior problems, 2) the impact of juvenile drug courts on recidivism rates, and 3) the effect of risky drinking on college student populations. He has published numerous journal articles which have appeared in the *American Journal of Sociology, Social Problems, Deviant Behavior, Criminal Justice & Behavior, Child Abuse & Neglect, The Journal of Interpersonal Violence*, and the *Journal of the American Academy of Child & Adolescent Psychiatry*. Dr. Thompson has served on numerous boards and task forces addressing issues related to at-risk youth.
APPENDIX B: COURSE DESCRIPTIONS

-CJ 606 Crime and Delinquency: Study of the nature and extent of juvenile delinquency. Analysis causes of juvenile and an exploration of policies to combat delinquency. *Accelerated Master’s program only* (3 credits)

-CJ 607 Deviant Behavior: Analysis of the precursors, the processes, and the consequences of deviance in Western society. *Accelerated Master’s program only* (3 credits)

-CJ 660 Criminalization: Analysis of historical and contemporary developments in the functions of police and courts. Focuses on societal, inter- and intra-organizational contexts. *Accelerated Master’s program only* (3 credits)

-CJ 661 Corrections: Analysis of institutional and community-centered corrections. Emphasis on historical, contemporary, and developing trends regarding structures, program content and problems. *Accelerated Master’s program only* (3 credits)

-CJ 702 Program Evaluation: Examination of the development and implementation of criminal justice program/policy evaluation, including the techniques of applied research and practical considerations. Topics also include ethical issues, evaluation planning, process, impact and cost-benefit analyses, grant writing, and dissemination of findings. (3 credits)

-CJ 703 Advanced Criminology: Advanced study of the distribution of crime and the major theories of crime causation from an interdisciplinary perspective, including special attention to issues relating to the measurement, nature, and extent of crime in the US. (3 credits)

-CJ 707 Juvenile Corrections: Examination of the history of ideas about and responses to juvenile delinquency, the scope and nature historically and today, and the responses of various parts of the juvenile justice system, as well as responses by other social institutions such as the family, community, and schools. (3 credits)

-CJ 709 Criminal Justice Policy: Examination of concepts related to the development, implementation, and evaluation of public policy as it relates to the criminal justice system, including the history, development and operation of policing, courts/sentencing, corrections, crime prevention, offender rehabilitation, and issues related to drugs and crime and race and crime. (3 credits)

-CJ 722 Structural Theories of Crime: Review of historical and contemporary structural theories of crime, including criteria of good theory, the assumptions of various criminological theories, and the similarities and differences in theories. Prereq: CJ 703. (3 credits)
**CJ 733 Issues in Institutional Corrections:** Course examining the various issues in adult prisons and jails in the United States. Topics include male and female inmates' life in prison violence, prisoners' rights, management and staff issues, and differences between prisons and jails. (3 credits)

**CJ 734 Advanced Criminal Justice Methods:** Provides an examination of the research process. Explores how criminologists conduct research, pitfalls of research and importance of discovery and application. Prereq: Undergraduate methods course in social or behavioral sciences and a statistics course. (3 credits)

**CJ 750 Violence:** Examination of various aspects of criminal violence, including various social settings (e.g., community, domestic, and school) with attention to the causes, consequences, moderating factors, and proposed solutions associated with violent criminal behavior. (3 credits)

**CJ 752 Criminogenic Commodities:** Examination of the role of drugs, guns, and gangs in contributing to crime. Analysis of the laws pertaining to drugs, guns, and gangs and their impact on criminality. (3 credits)

**CJ 754 Police and Society:** Provides an overview of law enforcement in the United States. Topics covered in this course include officer use of discretion, officer behavior, organizational function, and delivery of police services.

**CJ 755 Administrative Policing:** Organizational theory, leadership, communication, labor relations, and crisis management in police administration. (3 credits)

**CJ 757 Community Policing:** Examination of the history, philosophy, theory, and implementation of community policing. Comparison of community policing with other policing styles. (3 credits)

**CJ 759 Advanced Research Design:** Provides an overview of research design used in criminal justice and criminological research. Students will learn how to critique research designs that are most commonly used in criminal justice research. (3 credits)

**CJ 760 Police and Race Issues:** Provides an in-depth, historical, and contemporary view of the police and race issues in the US. Discussions on diversity, use of force, racial profiling, and citizen complaints. (3 credits)

**CJ 761 Police Effectiveness:** Examines effectiveness of police delivery services in the US. Examines theories and scrutinizes factors that are associated with police effectiveness. (3 credits)

**CJ 762 Community Corrections:** Evaluation of practices, issues, and trends in community corrections. Focus on probation, parole, halfway houses, and other community alternatives to incarceration. (3 credits)
- **CJ 763 Correctional Rehabilitation**: Examines issues related to the implementation and effectiveness of various correctional treatment approaches and programs. In-depth examination of the history, purpose and common targets of correctional treatment interventions. (3 credits)

- **CJ 764 Punishment and Society**: Examines the use of punishment in American society. This course is designed as a seminar to discuss past and current literature on the evolution of punishment, the purposes of punishment, and specific types of punishment.

- **CJ 765 Classics in Policing**: Provides an overview of the classic writings in policing which provide the foundation for contemporary research in policing. Students will learn how research in policing has advanced methodologically and theoretically since the first studies were conducted in the United States over fifty years ago. (3 credits)

- **CJ 768 Gender and Justice**: Examination of the role of gender in crime and the criminal justice system, including the changing roles of men and women in society, differential involvement in criminal behavior, and differential criminal justice response. (3 credits)

- **CJ 793 Independent Study**: Directed study allowing an individual student, under faculty supervision, to understand selected, independent work in topics of special interest or a limited experience in research.

- **CJ 795 Field Experience**: Field-oriented supervised learning activities outside the college classroom that include a preplanned assessment of the experience, registration during the term the experience is conducted, and post evaluation with the instructor.

- **CJ 797 Masters Paper**: Literature review, research, and preparation for paper required for the comprehensive study option.

- **CJ 798 Masters Thesis**: Original investigation under the supervision of a major adviser and a supervisory committee.

- **CJ 899 Doctoral Dissertation**: Original investigation under the supervision of a major adviser and a supervisory committee.
