

Noah Schmidt
Civil Engineering
Senior

Why did you pick NDSU?

I chose NDSU for the strong Engineering curriculum and because of the passion and support from students and alumni.

Tell me why you chose Civil Engineering . . .

I chose civil engineering because I have a passion for structural engineering.

What extra-curricular activities are you involved in?

Engineering Ambassadors, ASCE, Steel Bridge

How has NDSU prepared you for your future?

NDSU has given me the necessary foundation to begin a professional career in engineering. It has also provided me with vital relationships that have been and will be beneficial in my career.

What are your future plans?

After graduating, I plan to work for a structural engineering firm and earning my Professional Engineers license and hope to one day design the structure for a baseball stadium.

What are your thoughts about Fargo?

I think Fargo is a great “small town feel” community. There is always someone who is willing to help in a time of need. I also think it is the perfect college town because of its continuous growth and abundance of things to do.

What advice would you give to a prospective student?

There is a few things I would say to a prospective student. First, don't be rushed into deciding where you are going to school because it's important to find a good fit for you. Second, don't follow your high school friends. Come to college without knowing anyone, it will make the experience much better.

What has been your best memory at NDSU thus far?

My best memory at NDSU would have to be after the third National Championship win. Not only from the win but from the group of people that I went with. It was a combination of a couple different groups of friends and someone I don't know and it couldn't have been more fun.
