Welcome to the 2013 BEST Robotics Mall Day!

You do not need to register or check-in at the beginning of Mall Day. Simply find your table and proceed with following the instructions given below.

**Schedule:** The game field will open for practice at 10:00am. From 10:00am – 12:30pm, each team will be allowed **TWO**, 15-minute blocks of time to practice on the field. We will break for lunch from 12:30pm – 1:00pm. From 1:00pm – 3:30pm, each team will be allowed **THREE**, 10-minute blocks of time on the field. During these afternoon time blocks, we will run 3-minute matches to simulate the Game Day competition. **Please take the slips in the bag on your table and pin them on the Mall Day Schedule to sign-up for your desired time slots.** After all teams have had a chance to sign-up, we will make an announcement allowing you to fill in any empty slots for field time.

**Compliance:** At some point during the day today, please have your robot go through the compliance process with our Pit Boss, Dustin, at the designated table next to the game field. While this is not the official compliance check, it is the same process your robot will go through for the Game Day competition. We will check to make sure your robot fits within the 2’ x 2’ x 2’ compliance box and look for any illegal or modified parts or potential safety hazards. The purpose of this process will be to catch any “non-compliance” issues prior to Game Day.

**Battery Charging Station:** There is a table set up next to the game field designated for battery charging. Please bring your team’s battery charging unit to this table. Make sure your battery charger and batteries are labeled with your team name and number (using masking tape or painters tape ONLY). **Don’t forget to take your charger home with you at the end of the day!**

**Game Day Reminder:** Just a reminder that the Bison BEST Game Day is Friday, November 1st and Saturday, November 2nd. Wildcat BEST Game Day is Friday, November 1st.
