

Call for Papers

Fifth International Symposium on Materials from Renewables (ISMR)

July, 21-22, 2020

coatings

North Dakota State University

processes

Fargo, ND, USA

sponsored by ND EPSCoR, North Dakota Department of Agriculture, Agricultural Products Utilization Commission, Coatings (MDPI), NDSU Department of Coatings and Polymeric Materials, NDSU College of Engineering, Processes (MDPI)

5th ISMR targets aspects of fundamental and applied research related to renewable materials, including their applications in all fields of science and engineering.

Symposium topics include but are not limited to *Biobased Monomers and Polymers, Sustainable Polymeric Materials, Advanced Cellulose Materials, Nanocellulose Materials, Biobased Composites and Nano Composite, Enzymatic Polymerization, Environmental Applications and Effects, Eco-Materials, Life Cycle Assessment of Biobased Materials, Computational Studies of Nano- and Biobased Materials, Materials for Biomedical Applications.*

We kindly invite you to participate in the symposium and to submit Oral and/or Poster presentations in research areas listed above or on related topics.

Online submissions are accepted beginning **March, 15th 2020**. Abstracts are due **June, 1st, 2020** and have to be submitted through the ISMR website https://ndstate.co1.qualtrics.com/jfe/form/SV_6maJc6VleA55Let. Abstract template is provided online. Submissions shall be in the Word document format, please no PDFs.

Best Student Posters will be recognized based on excellence, knowledge and clarity of presentation in discussion with the judges. Three award winners will receive cash honorarium sponsored by *Coatings (MDPI)*.

For questions concerning the abstract submission process and conference registration, contact Ben Deetz benjamin.deetz@ndsu.edu, or Dr. Andriy Voronov (andriy.voronov@ndsu.edu).
