September 28th, 2012

To: Junior, Senior, and Grad Students in
Civil Engineering, Construction Management/Engineering & Architecture/LS Architecture

Re: Scholarship Program

The North Dakota Ready Mix & Concrete Products Association invites you to apply for
a scholarship to be given in January 2013. Attached you will find an application form for your
usage, or a type-written representation of the application is acceptable.

As part of the application process, you will be required to write a two page essay. This
eSSay is important, as the scholarship winners will need to show a genuine interest in the
concrete industry. This matter can also be enhanced by the type of coursework you are taking,
plus your work experience with concrete and the construction industry. Good examples of
work related experience would be employment by concrete contractors, ready mix suppliers,
cement suppliers, testing labs, DOT’s, county or city highway departments, consulting
engineers, etc.

U. S. Citizenship is a requirement of the scholarship application. In order to verify your
coursework and GPA, you will need to provide an official up-to-date copy of your transcript.

If you believe you have a chance at a scholarship, please complete the online application
process found on www.ndconcrete.com and submit, or mail to Scholarship Apps, 16586
Center Street; Hillsboro, ND 58045. The final date for applying is December 10th, 2012.

And finally, please review your essay and application for grammar and spelling errors. If
you have any questions concerning the application or your qualifications, please feel free to
call us at my office at 701-371-4497. Thank you and good luck with your academic pursuits.

Sincerely,
North Dakota Ready Mix & Concrete Products Association, Inc.

Yes [ ]   No [ ]

Essay Requirement & Job Experience

As part of the application process, you will be required to write a two page essay with the theme, “Perceptions of the Role Concrete will play in My Professional Future”. This essay is important, as the scholarship winners will need to show a genuine interest in the concrete industry. Scoring will also reflect positive summer work experience with concrete and/or the construction industry. Good examples of work related experience would be employment by concrete contractors, ready mix suppliers, cement suppliers, testing labs, DOT’s, county or city highway departments, consulting engineers, etc. Applications are due December 10th, 2012.
