NFIP Workshop

Floodplain Management
Certified Floodplain Manager Exam

FEMA-Region 8 and the North Dakota State Water Commission are hosting workshops in Bismarck and Fargo at the end of January. The Floodplain Management (FPM) training will cover the basic tenets of the National Flood Insurance Program (NFIP) and the minimum administrative requirements to successfully implement a community FPM program. Participants will learn the fundamentals of individual and local responsibilities for managing flood risks and loss through proper permitting and planning. This training is provided at no cost, but we ask that you pre-register by contacting Dionne Haynes (see below).

In addition to the training, the Association of State Floodplain Managers (ASFPM) Certified Floodplain Manager (CFM) exam will be offered at each location on the following day. For those of you who would like to take the CFM exam, you will need to register on the Association of State Floodplain Managers (ASFPM) website. The application may take a couple of weeks to process, so please plan ahead. There is a fee for taking the exam.
