NURS 702	Ethics/Policy	2
NURS 836P	Practicum V: FNP Role Integration	8
NURS 830	Clinical Applications	3
NURS 880	Interprofessional Education	1
Total:		86

* PLEASE NOTE: If a proposed graduate research project involves human or animal subjects, or biohazards, it must be submitted for review and approval by the Institutional Review Board (IRB), the Institutional Animal Care and Use Committee (IACUC), and/or the Institutional Biosafety Committee (IBC). The student should initiate this process after his or her supervisory committee has approved the final research design because IRB, IACUC, and IBC approval must be obtained before the research project commences.

Transfer Credits Official transcripts showing completion of credit to be transferred from other institutions must be in the Graduate School PRIOR to approval of the Plan of Study. Only include transfer course. Do not list the courses taken for a previous master's degree. The supervisory committee recommends the following transfer credits to satisfy degree requirements.

Course Number & Title Institution Cr

Credit hours transferred to doctoral program (in semester credit hours):
