

HE Award or Project Summary Report (Grants – Interactive Reports – HE Award or Prj Summary Report)

The HE Award or Project Summary Report provides a summary of awards or projects. The report includes the beginning and ending dates of the award. The award amount, cumulative expenditures and remaining budget – so you can review your departments grant activity as a quick high level few. The report can also be ran to show deficit balances only. Typically you will want to run this as Active Statuses Only so that the report only shows your data for active awards. Please contact Grant & Contract Accounting if you have any questions.
