24 August 2017

Good day!

Choctaw Staffing Solutions is looking for Licensed Clinical Social Workers for openings at Minot AFB, ND. The Air Force (AF) Family Advocacy Program (FAP) is a medical program that enhances AF readiness by promoting family and community health and resilience. AF FAP also advocates for nonviolent communities. These objectives are accomplished through the use of broad-based education and awareness activities along with the identification and treatment of family maltreatment incidents. These services prevent family maltreatment from reducing the duty performance of AF members.

Open positions include: Family Advocacy Treatment Manager (FATM) and Family Advocacy Intervention Specialist (FAIS).

Both positions require the social worker to have a Master's degree in Social Work from a CWSE accredited school and hold clinical licensure so as to practice independently. The FATM and FAIS must have 2 years full-time post-master's degree experience (within the last 3 years) in professional clinical counseling service programs to men, women, and children who are abusive or abused as well as experience as a group therapy facilitator or co-leader; must have two years experience working with children, families, and groups in clinical or community organization settings; or as program manager, with demonstrated responsibilities in program planning with implementation of education and intervention services, and community collaboration; and experience working with professionals and agencies that provide community support and counseling intervention services to children and families.

As an employee, you will be compensated at a competitive annual salary and provided with a benefits package that includes paid time off and paid Federal holidays.

If you are not currently seeking employment or looking for a change, please feel free to refer any of your peers who may be interested. Additionally, we have current openings in New Mexico, California, and South Dakota!

Sincerely,

Agordon
