President Chapman announces three awards

President Joseph A. Chapman has announced the availability of three awards designed to support and enhance the engagement of NDSU with Fargo and the state of North Dakota. Each award carries a stipend of $20,000.

The Ozbun Economic Development Award is established to stimulate NDSU faculty to assist the state in the area of economic development. Up to $20,000 ($10,000 as supplemental salary and $10,000 for expenses of the project described in the application) will be awarded in recognition of the presidency of Jim Ozbun.

The applicant must be a full-time faculty member at NDSU with the rank of assistant, associate or full professor. They also must be employed at NDSU when award payments are made.

Possible projects could be studying the impact of tourism relative to wildlife, fisheries and other related environmental issues, water movement of the Red River or work force evaluation of displaced farmers.

The Efficiency in Government Award sponsors studies to increase efficiency in state, country or city government in North Dakota. Applicants should partner with individuals in government.

Individuals or entities from NDSU or outside of NDSU may make proposals and receive funding. Proposals are restricted to projects within the State of North Dakota and all funds are to be spent in North Dakota. Possible projects could be to study ways to obtain better results from economic development funds and extension pilot studies.

The Community Projects Award sponsors studies for betterment of the community in the area of social concerns. Individuals or entities from NDSU or outside of NDSU may make proposals and receive funding. Community projects are restricted to the city of Fargo. Possible projects include MADD, crime stoppers, student recycling program, service learning or graffiti removal. These examples are not intended to limit the kinds of projects eligible for awards.

Anyone interested in applying for the awards should submit a one-page proposal, including a proposed budget, to the President’s Office no later than April 1.

Library off-campus storage facility open to researchers

NDSU faculty, staff, and graduate students now have on-site access to the library’s off-campus storage facility, also known as the Annex. Researchers with an NDSU ID will be allowed access on an appointment basis and allowed into the facility’s reading room.

Library staff will retrieve needed items for use in the facility or for check out. Photocopy service also is available, but all patrons must charge to an NDSU department.

To make an appointment, call (701) 293-6564. To ensure adequate staffing, appointments must be made 24 hours in advance. The library will continue the current pull service to bring requested materials to campus from the Annex.

Published by the Office of the Vice President for University Relations.
Clear Channel Bismarck joins Bison Radio Network

NDSU has added Clear Channel Bismarck to the Bison Radio Network of stations starting with the 2008 football season. Clear Channel Bismarck vice president and general manager Bob Denver, NDSU director of athletics Gene Taylor, and NDSU director of athletic broadcasting Jeremy Jorgenson made the announcement Feb. 20.

The two-year contract between NDSU and Clear Channel Bismarck guarantees coverage of all football games and one basketball game per week. During the 2008-09 athletic season, all evening kickoff times will air on 550 AM KFYR, while the Thursday night opener with Austin Peay on Aug. 28 and all afternoon kickoffs will air on 710 AM KXMR.

“Clear Channel Radio is thrilled to once again be carrying the Bison. We’re pleased that NDSU will benefit from increased coverage in Western and Central North Dakota,” said Denver.

Taylor said, “We were able to expand our radio coverage last year across the state and this agreement will solidify and extend that coverage even more. We look forward to bringing exciting Bison football action to our entire state.”

The move comes as the Bison start playoff eligibility, ending their five-year transition period from NCAA Division II to Division I.

Photography essay contest entries sought for International Week

Entries are being accepted for the annual photography essay contest held in conjunction with NDSU’s International Week, March 25 to 28.

Entries should include a photograph accompanied by a short essay and should portray a cultural theme such as scenic landscapes, historical monuments or cultural activities from around the world.

The first place entry will receive a $50 cash prize. Prizes will be awarded to the top three photographs and for viewers’ choice. Entry forms are available in the Office of International Programs, Memorial Union 116, or online at www.ndsu.edu/International. Entries will be accepted until Thursday, March 20, at 5 p.m. in the Office of International Programs.

For more information call 1-7895.

Bue named to academic all-district women’s basketball team

Lisa Bue, forward on the women’s basketball team, was named to the ESPN The Magazine’s Academic All-District VII University Division women’s basketball team, which was selected by members of College Sports Information Directors of America.

Bue, a senior from Austin, Minn., maintains a 3.50 grade point average in elementary education. She was one of three Summit League players to be named to the academic all-district team.

To be eligible for the College Sports Information Directors of America Academic All-America honor, student athletes must have a 3.2 or better cumulative grade point average on a four-point scale, have sophomore athletic standing and be a starter or key reserve for their team.

Distance and Continuing Education hires two, promotes one

NDSU Distance and Continuing Education has hired Elango Murugaiyan as computer programmer, Mark Taggart as multimedia specialist and promoted Connie Jadrny to marketing and public relations coordinator.

“These individuals bring with them a wealth of knowledge and experience and as such will be a great addition to the DCE staff,” said Lisa Nordick, director of Distance and Continuing Education.

Murugaiyan will help manage the technology needs of the office including maintaining computer systems, software design and development, Web software and database applications, Web site development, and maintenance and course development support. He is an NDSU graduate student and previously worked for NDSU Publications Services.

Taggart will work with instructors to enhance both online and face-to-face courses. He has more than 10 years of experience designing and editing Web pages as well as knowledge of effective multimedia and Web design practices for instructional related materials. Prior to joining NDSU, Taggart had been a multimedia specialist for eight years with Left Brain Media.

Connie Jadrny will work to increase visibility of products and services offered. She previously was the receptionist/non-credit assistant for the past two years. Prior to joining NDSU, she worked for the West Fargo Area Chamber of Commerce where she promoted local businesses, planned events and created marketing pieces.

Distance and Continuing Education offers online and face-to-face undergraduate and graduate classes, non-credit learning opportunities, continuing education unit opportunities, conference planning services and professional development course work. For more information, call 1-7015 or 1-800-726-1724 or go to www.ndsu.edu/dce.
Berg joins Equine Studies program

Erika Berg has joined the NDSU Equine Studies program as assistant professor. She will spend 80 percent of her time teaching and 20 percent conducting research.

Berg plans to develop a therapeutic horsemanship curriculum. She also will teach an upper level equine physiology class and coach the intercollegiate hunt seat equestrian team.

Prior to coming to NDSU, she was an instructor and horse unit manager at the University of Missouri, Columbia, and a certified therapeutic riding instructor for physically, mentally and emotionally challenged children at the Cedar Creek Therapeutic Riding Center in Columbia.

She previously worked for the Judevine Autism Project in Columbia and was a teaching assistant and guest lecturer at Texas A&M University, College Station. She also was barn manager and guest lecturer at Berry College, Rome, Ga., and teaching assistant at Purdue University, West Lafayette, Ind.

Her research has focused on the physiology of equine obesity; endocrine profiles of mares and foals; equine behavior; effects of transportation on equine physiology and behavior; stress physiology in the neonatal pig; and digestive effects of fructooligosaccharides, a source of dietary fiber, in yearling horses.

Berg earned her bachelor’s degree in animal science and master’s degree in animal science and animal management from Purdue University and doctorate in animal science from the University of Missouri.

Weber to present ‘Missing Voices’

Christina Weber, NDSU assistant professor of sociology and a 2008 Larry Remele Memorial Fellow, will present “Missing Voices” on Wednesday, March 19, at 7 p.m. in Beckwith Auditorium.

The Larry Remele Memorial Fellowship program is funded by the North Dakota Humanities Council. Since 1986, the council has donated more than $500,000 in research funds to more than 100 scholars who either live or teach in North Dakota. As part of the fellowship, scholars spend eight months conducting research and preparing a final report and public presentation for the people of North Dakota.

In “Missing Voices: Women’s Experience in War and Combat,” Weber will use in-depth interviews with women in North Dakota who have served in recent wars, including Vietnam and Iraq, to tell of the dangers and hardships women experience in war and the challenges they have with reintegrating into home and civilian life.

Weber earned her doctorate from the State University of New York, Buffalo, in 2005 and began working at NDSU in fall 2005. Her professional work ranges from research on the social impact of war to theoretical analyses of social inequality and social change. In her doctoral research, she examined the effects of the Vietnam War on children of Vietnam veterans. Currently, she is working with the North Dakota National Guard’s Family Program on a research project that explores institutional responses to war.

Myers to present at American Indian Higher Education Consortium conference

Deland Myers, director of the NDSU School of Food Systems, will deliver three presentations at the 27th annual American Indian Higher Education Consortium March 17-20 in Bismarck, N.D.

Myers’ presentations include “How to Study More Effectively,” “What is Graduate School” and “Presentation Skills.”

The consortium was founded in 1972 by the presidents of the nation’s first six tribal colleges, as an informal collaboration among member colleges. Today, the consortium has grown to represent 34 colleges in the United States and one Canadian institution and is governed jointly by each member institution.

The consortium’s mission is to support the work of these colleges and the national movement for tribal self-determination. Its mission statement identifies four objectives: maintain commonly held standards of quality in American Indian education; support the development of new tribally controlled colleges; promote and assist in the development of legislation to support American Indian higher education; and encourage greater participation by American Indians in the development of higher education policy.

Representatives from NDSU’s Office of Admission, Multicultural Student Services and Office of Equity and Diversity also will attend the conference.

Each year the consortium seeks presenters on all subjects related to leadership in higher education, tribal colleges, student development, career exploration, grant management, academic achievement, student retention and communication.

For more information, go to www.aihec.org.

Psychology alumni and graduate students give national presentations

NDSU graduate students and alumni from the Department of Psychology recently gave presentations at national conferences.

Jaryn Allen presented “Attentional Processing of Body Shape and Weight-Related Stimuli,” at the 115th annual convention of the American Psychological Association in San Francisco. Allen earned a master’s degree in clinical psychology in 2007 from NDSU and is working toward a doctorate in the counseling psychology program at the University of North Dakota.

At the 41st annual convention of the Association for Behavioral and Cognitive Therapies in Philadelphia, Jodi Christianson presented “Cognitive Vulnerability to Depression: A Laboratory Investigation.” Christianson earned a master’s degree in clinical psychology from NDSU in 2007 and is working in Austin, Texas. Also, Chad Lystad presented “Emotion-congruent Facilitation when Processing Anxious Stimuli.” Lystad earned a master’s degree in clinical psychology from NDSU in 2006 and is working at the Neuropsychiatric Institute in Fargo.

Hsin-Mei Sun presented “The Effect of Spatial and Nonspatial Contextual Information on Object Visual Memory” at the annual meeting of the Psychonomic Society in Long Beach, Calif. Sun is a graduate student in the NDSU cognitive and visual neuroscience psychology program.

Ag webmaster to retire

After 30 years, NDSU Agriculture Webmaster Dave Rice will retire Feb. 29. He began as an instructor and researcher in the agricultural economics department. He became the North Dakota Agriculture Network manager in 1981 and was instrumental in introducing and integrating microcomputers for the NDSU Extension Service during the mid-1980s.

He served as interim chair of Agriculture Communication from 1993 to 1995 and in 1995 became the first webmaster for NDSU Agriculture. The agriculture Web site had nearly 20 million requests in 2007.

Rice was awarded the Epsilon Sigma Phi Meritorious Service Award in 1998 and the National Association of County Agricultural Agents Distinguished Service Award in 2002. In 2004, he was awarded the National Association of County Agricultural Agents Pinnacle Award for Outstanding Humanitarian Service.

He also is vice president of the Northland Educators Federal Credit Union board of directors. A Vietnam veteran, Rice is very active in the American Legion and has held many local and state positions. He plans to retire from the Navy in 2009 after completing a 40-year career with the Navy and Navy Reserve.

An NDSU Extension Service master gardener, Rice plans to do a lot of gardening in retirement. He also intends to do volunteer work for the American Legion, Veterans Affairs hospital and other projects, including the WDAY Honor Flight. He also plans to expand his Web site, www.tristateveterans.com, which provides information to military veterans. Rice also will spend time with his granddaughter, who was born in late January.

NDSU Agriculture Communication will host an open house for Rice in Morrill 5A on Thursday, Feb. 28, from 2 p.m. to 3:30 p.m. A retirement dinner is scheduled for Friday, Feb. 29, at the Fargo American Legion.

Visit www.qmcsrice.com/retire to RSVP for the dinner.

Strom to present ‘Government Regulations versus Individual Choice’

Claire Strom, NDSU associate professor of history and religion and a 2008 Larry Remele Memorial Fellow, will present “Government Regulations versus Individual Choice” on Wednesday, March 12, at 7 p.m. in Beckwith Auditorium.

The Larry Remele Memorial Fellowship program is funded by the North Dakota Humanities Council. Since 1986, the council has donated more than $500,000 in research funds to more than 100 scholars who either live or teach in North Dakota. As part of the fellowship, scholars spend eight months conducting research and preparing a final report and public presentation for the people of North Dakota.

Strom’s presentation will cover the origins of Texas Fever in cattle and the scientific advances that allowed it to be identified and a solution proposed. According to her research the federal government started a program in 1906 to eradicate the cattle tick and the disease (Texas Fever) it carried from the American South. Despite apparent benefits, the program met with considerable resistance from many southern farmers. They believed that financial and political cost of tick eradication was not worth the increased value of disease-free livestock. Consequently, many cattle owners resisted the program using methods ranging from petitioning officials to dynamiting dipping vats to killing federal inspectors.

Strom earned her first two degrees from Oxford University, specializing in Dark Age history. She earned a doctorate in agricultural history and rural studies from Iowa State University in 1998. She has written two books, “Profiting from the Plains: The Great Northern Railway and Corporate Development of the American West,” and with David B. Danbom, NDSU professor of history and religion, “Fargo, North Dakota, 1870-1940.” Since 2003, she has been editor of Agricultural History, an international journal.

NDSU Rosenquist Artist in Residence awarded Swiss sculpture residency

Jonathan Pellitteri, the 2008 James Rosenquist Artist in Residence at NDSU, has been awarded the International Sculpture Center Sculpture Residency in Switzerland.

Pellitteri was selected through a competitive process to participate with sculptor Heinz Aeschlimann and his wife, Gertrud, in an intercultural experience. He will spend up to six weeks with the Aeschlimanns at their home and studio in Zofingen, Switzerland. The experience will culminate with an exhibition of work created by Pellitteri during the residency.

At the end of his residency, Pellitteri will write an article about his experience to be published in Sculpture magazine’s Insider, the International Sculpture Center member newsletter, and on the ISC Web site, www.sculpture.org.

As the current James Rosenquist Artist in Residence at NDSU, Pellitteri is spending the semester interacting with students, holding public lectures and opening his studio to visitors. His focus as a sculptor is to reach the public with works representing his observations of the world around him. Using his experiences as a mason and carpenter, Pellitteri handles various mediums and processes to introduce new materials and methods into his work.

According to Pellitteri, his goal is not to be the impetus for global change, but to quietly intrigue viewers with his sculptures and impart a curiosity of the objects that fill lives and inspire individual evaluations of how they are influenced by them. An exhibit of Pellitteri’s works will be held at the NDSU Downtown Gallery, April 8-24.
NDSU Bookstore to hold book signing and leap year special

Kathleen Taylor, author of the knitting book, “i heart felt,” will sign copies of her book at the NDSU Bookstore on Thursday, Feb. 28 from 11 a.m. to 1 p.m. The book will be available to purchase and the event is open to the public.

On Friday, Feb. 29, the NDSU Bookstore will have a Leap Year Special. Customers will receive 29 percent off non-hooded sweatshirts, children’s books, all fiction books, mini-football helmets and wall pops. With any iPod purchase, customers will receive a $10 gift card.

‘Eat Smart. Play Hard.’ Kids’ Day set for March 1

The NDSU Extension Service and Bison Athletics will kick off March, National Nutrition Month, with a Kids’ Day carnival on Saturday, March 1.

The carnival, which is free with a paid ticket to that day’s women’s or men’s basketball game, will be held from 12:30 p.m. to 2 p.m. and 5:30 p.m. to 7 p.m. at the Bison Sports Arena.

The carnival includes inflatable games, prize drawings, games hosted by NDSU athletes, healthy snacks and pictures with Thundar, the Bison mascot. An information booth for parents also will be available. The first 40 children to arrive at each carnival will receive a free T-shirt.

Tickets will be available at the door or call 231-NDSU. For game information, visit www.gobison.com. For information about the “Eat Smart. Play Hard.” program, visit www.ndsu.edu/eatsmart.

NDSU to host R & D Showcase

The 2008 R & D Showcase is scheduled for April 16-17 at the Fargodome. This year’s theme is “Impacting Locally, Reaching Globally.”

North Dakota’s universities and technology partners will teach attendees how the state’s economy is being shaped by research and technology developments. Participants will learn how research universities are working with the state, federal and private sectors to spur technology-led economic development.

Scheduled keynote speakers include Yongmaan Park, chairman of Doosan Infracore Co., and Jeffrey Black, chairman and CEO of Teleflex Inc.

For more information, contact Jan Sobolik at (701) 499-3602 or jan@ndsuresearchpark.com.

Northern Crops Institute offers short course on flaxseed

The Northern Crops Institute will offer the short course “Flaxseed: Adding Functional Food Value,” March 24-26, in conjunction with the 62nd annual International Flax Institute held at the Doublewood Inn in Fargo.

The course highlights nutritional benefits of flaxseed, flaxseed quality, milling of flaxseed, storage stability and utilization of milled flaxseed in bread, pasta, noodles and extruded snack products, and sensory properties of flaxseed in food systems. Course lectures will be supplemented with hands-on experience in the Northern Crop Institute’s grain grading, analytical, baking and processing laboratories.

The course is designed for senior administrative professionals, research and development managers, food product development scientists, quality control managers and purchasing agents at baking, milling, pasta and noodle, puffed snack and breakfast cereal companies.

The registration deadline is March 10. The course fee is $650 and includes written materials associated with lectures and laboratory demonstrations and scheduled refreshment breaks. Special rates are available to groups of three or more. Daily complimentary transportation will be provided between the Northern Crops Institute and the Doublewood. Participants must register separately for the Flax Institute.

For more information and registration forms, call 1-7736 or e-mail nci@ndsuext.edu. Information also is available at www.northern-crops.com.

Raizada to deliver pharmaceutical sciences research lecture

Mohan K. Raizada, professor of physiology and functional genomics at the University of Florida College of Medicine, Gainesville, Fla., will deliver the next lecture of the NDSU Pharmaceutical Science Research Lecture Series on Tuesday, March 11, from 9 a.m. to 10 a.m. in Sudro Hall, room 21.

The presentation is titled “ACE2: A Novel Target Against Cardiovascular Disease.”

Raizada’s research interests include the area of central control of cardiovascular function and gene therapy for hypertension. He has published more than 200 peer-reviewed scientific papers, 55 reviews and numerous national and international presentations. He has received more than $15 million in research funding from the American Heart Association and National Institutes of Health. He is a regular member of the National Institutes of Health Experimental Cardiovascular Science study section. Raizada also is associate editor of the journal, Regulatory Peptides, and a member of editorial boards of six other journals.

The Department of Pharmaceutical Sciences in the College of Pharmacy, Nursing, and Allied Sciences at NDSU sponsors the Pharmaceutical Sciences Research Lecture Series. The lectures are open to all persons interested in pharmaceutical and biomedical research. For more information, contact Jagdish Singh at 1-7943.
Students offer fine dining experience

Students in NDSU’s Restaurant Operations Management class will operate a mock fine dining restaurant three Thursdays in March.

The restaurant will be open March 13, 20 and 27 from 5 p.m. to 7 p.m. at the NDSU Alumni Center. Each three-course meal will feature a different theme, including Gourmet American, Luxurious Italian and Spring Cuisine.

According to course instructor Joyce Hwang, assistant professor of hospitality and tourism management, the students developed their own restaurant concept and planned their menus, purchasing, food production and service. While the public enjoys a fine dining experience, students will learn about food preparation, service, marketing, financial aspects and overall operation of a restaurant.

The menu for Gourmet American night on March 13 includes a grape walnut salad with truffle oil vinaigrette, filet mignon prepared to order and crème caramel garnished with fresh seasonal berries.

Luxurious Italiano on March 20 will feature a Caesar salad served in a parmesan crusted bowl; chicken breast stuffed with red pepper, fresh basil and mozzarella; and chocolate covered strawberries served with a port-vanilla sauce.

Spring Cuisine on March 27 includes a goat cheese and green apple spinach salad with a vinaigrette dressing, macadamia nut encrusted halibut filet and flourless chocolate cake with chocolate ganache and raspberry coulis.

Each meal is $25 per person and includes a beverage. The dinners are by reservation only. For reservations, contact Joanne Cook at 1-8604 or joanne.cook@ndsu.edu or Hwang at 1-8220 or hyunjoo hwang@ndsu.edu. Reservations will be accepted until noon on the Monday before each meal.

For more information about the class or mock restaurant, contact Hwang.

SHORTS AND REMINDERS

Steinhaus-Rhinehart Scholarship applications sought

Applications are being accepted for the NDSU Development Foundation Steinhaus-Rhinehart Scholarship. Students with senior standing as of fall 2007 can apply for the $500 scholarship.

The scholarship provides assistance to students in the College of Science and Mathematics or the College of Agriculture, Food Systems, and Natural Resources who are majoring in a biological science, including animal and range sciences, biochemistry, biological sciences, biotechnology, botany, crop and weed sciences, horticulture, microbiology or zoology. The applicant also must plan to do research and attend graduate school in the area of biological science. Students must have a cumulative grade point average of 3.0 or higher.

Applications are available in the Office of Student Financial Services in Ceres Hall and will be accepted until March 21. A committee of faculty members from the two colleges will monitor applications. The recipient will be determined by April 11 and the award will be made during fall 2008 semester.

For more information, contact Diane Goede at 1-7412 or diane goede@ndsu.edu.

NDSU Women’s Club offering two scholarships

The NDSU Women’s Club will award two $1,000 scholarships this fall.

Applicants must be students from North Dakota, South Dakota or Minnesota; have junior status during the upcoming fall semester; show evidence of extracurricular or community involvement; and provide letters of reference from at least two people from the NDSU community, including the major professor. Students must have at least a 3.2 cumulative grade point average. A demonstration of financial need is not required.

Applications are available in the Office of Student Financial Services and must be submitted by Thursday, May 1. For more information, contact Bushra Ahmad at (701) 232-1528 or bushrasahmad@yahoo.com.

NDW-R Forms due for 2008

NDSU employees who are Minnesota residents and are having Minnesota state income tax withheld from their paychecks are reminded to complete a new NDW-R form for 2008 by Feb. 29. The form must be completed each year in order to continue Minnesota income tax withholding. Employees who do not complete this form will have North Dakota state income tax withheld from their paychecks beginning March 14. Forms can be found online at www.ndsu.edu/hr/forms or in the Human Resources and Payroll Office in Old Main 205.

Positions Available

Positions open and screening dates through the Office of Human Resources, Room 205, Old Main:

- Administrative Secretary/#00020582
  - Computer Science
  - $24,000+/year
  - Feb. 27

- Administrative Secretary/#00023347
  - Distance and Continuing Education
  - $25,500+/year
  - March 5

- Nutrition Education Assistant/#00018544
- Expanded Food and Nutrition Education Program
- United Tribes Technical College, Bismarck, N.D.
- Nine months; 40 hours per week
- $16,740/year
- Contingent on availability of federal funds
- Open until filled

- Nutrition Education Assistant,
- Expanded Food and Nutrition Education Program
- NDSU Extension Service - Fort Berthold
- NDSU Extension Service, New Town, N.D.
- 12 months; 40 hours per week
- $22,318/year
- Contingent on availability of federal funds
- Open until filled

- Nutrition Education Assistant
- Family Nutrition Program - Dunn and Mercer Counties
- Extension Food and Nutrition/Family Nutrition Program
- NDSU Extension Service, Killdeer, ND
- 12 months, 32 hours per week
- $17,854.40+/year
- Contingent on availability of federal funds
- Open until filled
Equipment Operator - Waste Reduction and Recycling/#00026271
Facilities Management
$22,000+/year
Open until filled

Custodian
Residence Life
$17,945+/year
Open until filled

Turfgrass Research Specialist/#00020163
Plant Sciences
$28,000+/year
Feb. 27

Hall Director
Full-time, 12-month position
Residence Life
$29,000+/year, plus partially furnished apartment, meal plan, competitive benefits package
March 3

Continuing Resources Librarian/#00019211
NDSU Library
$42,000+/year
March 12

Counselor/#00021077
Counseling Center
$32,000+/year
March 31

Technical Director/#00021434
Northern Crops Institute
Salary commensurate with experience
April 1

Intensive English Language Program Coordinator/#00025459
Office of International Programs
$36,000+/year
April 14

Programmer/Analyst/#00020825
Registration and Records
$43,000+/year
Open until filled

Programmer Analyst
NDUS ConnectND
Fargo
$41,500+/year
Open until filled

Position openings also are available through the NDSU Web site at www.ndsu.edu/jobs.
