

RESEARCH EXPERIENCE FOR UNDERGRADUATES

IN BIG DATA ANALYTICS AND MACHINE LEARNING WITH AN INTERNATIONAL EXPERIENCE IN CHILE

North Dakota State University departments of **Computer Science** and **Industrial, Manufacturing Engineering** and the department of **Industrial and Systems Engineering** at North Carolina A&T State University are pleased to offer this special program with funding provided from the **National Science Foundation**.

**MAY 31 THROUGH
AUGUST 5, 2022**

STIPENDS UP TO **\$6000**

ROOM & BOARD PROVIDED

TRAVEL FUNDING UP TO **\$2200**

Planned activities include: multidisciplinary research projects, faculty-led seminars, workshops and seminars, networking and social activities, and end-of-program REU poster symposium.

The National Science Foundation (NSF) funds a large number of research opportunities for undergraduate students through its **REU Sites program**. An REU Site consists of a group of nine undergraduates who work in the research programs of the host institution. Each student is associated with a specific research project, where he/she works closely with the faculty and other researchers.

Application review will begin from **February 15, 2022** and continue until all positions have been filled.
