

Do You Need Money For College Or Career School?

Apply for Federal Financial Aid

What is federal student aid?

It's money from the federal government that helps you pay for college, career school, or graduate school expenses. Federal student aid is available through grants, work-study funds, and loans.

How do I apply for aid?

You need to complete the *Free Application for Federal Student Aid* (FAFSA®) form by logging in at fafsa.gov to apply online, filling it out in the myStudentAid mobile app (available in the Apple App Store or the Google Play store), or completing and mailing the FAFSA PDF.

Students and parents will need an FSA ID (account username and password) to sign the form through the mobile app and online. You'll also use your FSA ID to access information about your financial aid on U.S. Department of Education websites. You can create an FSA ID in advance or while you fill out the FAFSA form. To find out more about the FSA ID, visit StudentAid.gov/help-center/answers/article/fsa-id.

When should I apply?

Each October, the FAFSA form is available for the next school year. You'll need to reapply for aid every year you are in school. Here's a summary of key dates for submitting the FAFSA form depending on when you plan to go to school:

Don't let your interest capitalize!

If you have unsubsidized or PLUS loans, then interest accumulates on these loans before you begin repayment (e.g., while you are in school). Consider paying interest on your federal student loans while you're in school, and during grace, deferment, and forbearance periods to avoid capitalization (the addition of unpaid interest to the principal balance of your loan). Capitalization increases your loan balance, and interest will then accrue on that higher principal amount.

Ready to fill out the FAFSA® form?
Go to fafsa.gov!

I completed the FAFSA® form. Now what?

After you submit your FAFSA form, you'll receive a *Student Aid Report* (SAR) that summarizes the data you submitted. If you provided a valid email address in your application, you'll receive an email with instructions on how to access an online copy of your SAR within three days (if you apply at fafsa.gov or through the myStudentAid mobile app) or three weeks (if you mail in a paper FAFSA form).

When you receive your SAR, review it to make sure you didn't make any mistakes on your FAFSA form.

- If you don't need to make any changes to the information on your SAR, just keep it for your records.
- To find out how to correct mistakes or make updates to your FAFSA form, visit StudentAid.gov/apply-for-aid/fafsa/review-and-correct or contact the school to which you are applying.

The information in your SAR will be provided to the schools you listed on your FAFSA form. You will receive an aid offer from the schools at which you were accepted for admission.

Do I have to repay my Loans?

Yes. Student loans, unlike grants and work-study funds, are borrowed money that must be repaid, with interest, just like car loans and home mortgages. You cannot have these loans canceled because you didn't like the education you received, didn't get a job in your field of study, or are having financial difficulty. So think about the amount you'll have to repay before you take out a loan and only borrow the amount you need. Learn more about loan repayment at StudentAid.gov/repay.

What's an aid offer and how much aid will I get?

If you applied for admission to a college or career school you listed on your FAFSA form, that school will get your FAFSA information. The school will calculate your aid and send you an aid offer (often electronically).

Most schools will wait to send you an aid offer only after they accept you for admission. The aid offer will tell you how much aid you're eligible to receive at that school and will include the types and amounts of financial aid you may receive from federal, state, private, and school sources. This combination of help from different sources is your financial aid package. How much aid you receive depends on some factors, including

- cost of attendance (for each school);
- Expected Family Contribution (EFC)—the EFC does not represent a dollar amount but, instead, it's a number used to calculate how much financial aid you're eligible to receive based on your FAFSA information;
- year in school; and
- your enrollment status (e.g., full-time, half-time, etc.).

You can compare school aid offers and see which school is most affordable once financial aid is taken into account. Contact the school's financial aid office if you have any questions about the aid being offered to you. For more information on how aid is calculated, visit [StudentAid.gov/how-calculated](https://studentaid.gov/how-calculated).

How will I receive my aid?

Your college or career school—not the U.S. Department of Education—will distribute your aid. In most cases, your federal student aid will be applied directly to your school account. The financial aid staff at your school will explain exactly how and when your aid will be disbursed (paid out).

What else do I need to remember when applying for federal student aid?

- ✓ Only borrow what you need and what you can afford to pay back.
 - ✓ Your FAFSA information has to be correct to ensure that you receive your aid promptly and in the right amount. Always respond to (or act upon) any correspondence your school sends you—and meet all deadlines.
 - ✓ Contact the school if you're interested in school or state grants.
