Culture
“It’s such a unique experience and it didn’t feel like class at all, it just felt like vacation while we were still learning so much.”
“The culture in the United States is so fast-paced when really our patients need a listening ear more often than we provide. I will be more understanding as a nurse and culturally competent.”
“Everything about this experience was unique and a once in a lifetime thing.”
"I feel that I have changed for the better. After going on this trip I have learned the importance of contrast within a culture. I feel that it is something everyone must experience and seek out because without it, one will never fully understand where a city and culture have been and how they will continue to grow in the future."
Study in 73 countries, including the U.S.
