COLLEGE OF PHARMACY

SELF-STUDY REPORT

Prepared for

the Accreditation Council for Pharmacy Education

Visit on April 11-13, 2006
Preface

In spring of 2004, the NDSU College of Pharmacy initiated the self-study process in preparation for the accreditation evaluation visit by ACPE subsequently scheduled for April 11-13, 2006. A self-study steering committee was appointed by the Dean under the chairmanship of Dr. Donald Miller. The Steering Committee appointed subcommittees in September 2004 to write initial drafts for section of the self-study. Preliminary review and revision of each draft began in January 2005. Surveys of faculty, student, and experiential preceptors were undertaken to assist with the self-study. The College of Pharmacy’s Alumni Advisory Board formed a subcommittee to provide input into each section as it was written, and the full Advisory Board reviewed a semi-final draft in fall 2005. A draft version of the self-study was discussed by all faculty at a retreat in late August 2005. Further revision occurred based on this input and a final self-study was discussed and approved at a second retreat on January 5, 2006. All factual information in this self-study was accurate as of January 31, 2006.

The self-study is divided into sections as recommended by the guidelines provided by the Council. Appendices are provided in a separate book. Many of these are also available at the NDSU College of Pharmacy web site at www.ndsu.edu/pharmacy. The NDSU policy manual is available at www.ndsu.edu/policy.
