Accelerate your path to career success

NEW streamlined NDSU Pharmacy Admissions option

If you’re looking to forge a professional career in health professions, the streamlined NDSU Pharmacy Admissions option may help you reach your goal more quickly.

What is it?
New Post-Baccalaureate Admissions Pathway - NDSU Doctor of Pharmacy

Who is eligible?
May 2021 graduates with a bachelor’s degree in a health or STEM field

What are the new streamlined requirements?
1. Earn a bachelor’s degree in a health or STEM field by May 2021
2. Complete the following courses:
   a. General biology (3 credits)
   b. Human Anatomy and Physiology with Laboratories (8 credits)
   c. General Chemistry with or without Laboratories (6-8 credits)
   d. Public Speaking (3 credits)
3. Take the PCAT or MCAT exam (dates available throughout the spring 2021 semester)
4. Apply through PharmCAS at https://www.pharmcas.org/
5. Participate in an interview process

How and when can I enter the NDSU Pharmacy program?
- If you are accepted into the program, but have not yet completed coursework in organic chemistry, biochemistry, physics, or calculus, you are able to enter the professional program in May 2021 AND complete a streamlined, summer preparatory program.

- If you have completed sufficient coursework in all of these areas, you’ll enter the professional program in Fall semester 2021 upon acceptance.
