PHYS 462/662  [Thermal and Statistical Physics]  Fall 2017

Course #4648-4649 (3 credits)

Instructor:  Dr. Alan R. Denton  alan.denton@ndsu.edu
Department of Physics, NDSU  Tel: 701-231-7036

Classes:  Tuesday & Thursday, 3:30-4:45 p.m., SE 221

Office Hours:  Drop in or make an appointment.

Bulletin Description:
Classical postulates and laws of thermodynamics; cyclic processes and entropy; thermodynamic potentials, equilibrium, stability, and phase transitions; Maxwell-Boltzmann distribution, applications to classical gases and magnets; quantum statistics, Bose-Einstein and Fermi-Dirac distributions, applications to quantum gases.

Objectives:  The objectives of the course are to master the foundations of thermodynamics and statistical mechanics and to apply theoretical and computational methods to solving practical problems in a variety of physical systems.  Graduate students will engage in research on a topic of relevance to both the course and their own research interests.

Preparation:  Basic knowledge of mechanics, quantum physics, mathematical methods.

Student Responsibilities:  Attend all classes.  Read assigned material in advance.  Come prepared for discussion.  Be curious; ask questions.  Complete assignments on time.

Textbooks:  D. Schroeder, An Introduction to Thermal Physics (Addison-Wesley, 2000)
F. Reif, Fundamentals of Statistical and Thermal Physics (Waveland, 2008)

<tr>
<td>Total</td>
<td>300/350 pts</td>
</tr>
</tbody>
</table>

Requirements and assessment of the project are described in the attached document.  No makeup exams will be scheduled, but your lowest of two midterm scores is dropped.  According to NDSU Policy 333 (www.ndsu.edu/fileadmin/policy/333.pdf), attendance in classes is expected.  More than three unexcused absences may result in failure.

Homework:  Assignments will be posted on Blackboard (https://bb.ndsu.nodak.edu).  While discussion of homework with classmates is encouraged, submitted work must be your own.  Similarity to work of other students or to internet solutions will yield no points.  Since solutions will be discussed on the due date, late assignments cannot be accepted.

However, partial credit may be given for incomplete work, so submit whatever you can by the deadline.

Note:  Three missed homework assignments will result in automatic failure of the course.

Grading:  A: > 90%,  B: 80 to < 90%,  C: 70 to < 80%,  D: 60 to < 70%,  F: < 60%
I reserve the right to shift grade boundaries, but any shift will work only in your favor.

1
The academic community is operated on the basis of honesty, integrity, and fair play. NDSU Policy 335: Code of Academic Responsibility and Conduct applies to cases in which cheating, plagiarism, or other academic misconduct have occurred in an instructional context. Students found guilty of academic misconduct are subject to penalties, up to and possibly including suspension and/or expulsion. Student academic misconduct records are maintained by the Office of Registration and Records. Informational resources about academic honesty for students and instructional staff members can be found at www.ndsu.edu/academichonesty.

All access to NDSU computers must respect NDSU Senate Policy, section 158: Acceptable use of Electronic Communication Devices http://www.ndsu.nodak.edu/policy/158.htm

Any students with disabilities or other special needs, who need special accommodations in this course are invited to share concerns or requests with the instructor and to contact the Disability Services Office (www.ndsu.edu/disabilityservices) as soon as possible.
