

**Department of Public Health Graduate Research Assistant
Antimicrobial Stewardship Project**

Project Description:

The graduate research assistant for the Antimicrobial Stewardship Project will provide research and technical assistance to Dr. Paul Carson, the antimicrobial stewardship pharmacist (to be hired), and the North Dakota Department of Health on antimicrobial stewardship and antibiotic resistance-related topics. The graduate assistant will participate in monthly calls with the North Dakota Department of Health program staff. The student will assist with other projects, as assigned. Projects may include: conducting literature reviews on topics related to antimicrobial stewardship and antibiotic resistance, creating materials for the North Dakota Department of Health, and/or data collection and analysis.

Terms of Employment:

This position begins August 15, 2022 and ends May 12, 2023.
CIRE graduate research assistants are paid \$16/hour.
This position requires 10-20 hours of work per week.
This position can be done remotely.

Tuition Waiver:

This graduate assistantship comes with a base tuition waiver. Student is responsible for differential tuition, fees, and cost of books and materials.
