Notes:

- Instructors are asked to enter deficient grades (D or F) at mid-semester for undergraduate students. If no mid-term grades appear, it either means that you are not in deficient status in any enrolled course, OR the instructor did not enter mid-term grades into Campus Connection.

- Consult your instructor with questions regarding your status in a class.

- Mid-Term Grades are only available for full, semester-length courses.

- Mid-term grades are not considered official grades, and do not guarantee a final grade in a course.

- Once entered into Campus Connection, they may be viewed by students/advisors, but do not appear on academic transcripts.
