More than 70 undergraduates from colleges across NDSU participated in the first Annual NDSU EXPLORE undergraduate excellence in research and scholarly activity event.

AWARD WINNERS in 2014

First Place, Morning Poster Session:
Jacob Larson and Mike Mann
Cellulation

Honorable Mentions, Morning Poster Session:
Jane Loueng
Relation of two brief health literacy tools to correct prescription understanding
Wei Kang Lim
Polymer crowding and shape distributions in polymer-nanoparticle mixtures

First Place, Afternoon Poster Session:
Sanjivni Sinha
A case study to see the effect of nanoscale zero-valent iron on plant growth promoting rhizobacteria (PGPR)
Pseudomonas fluorescens

Honorable Mentions, Afternoon Poster Session:
Allison Goldenstein
Epidemiology of Moraxella bovis in North Dakota

Kelsy Hewitt
Costuming The Little Shop of Horrors

Krystal Dawn Kalliokoski
Renewable resource derived starting materials for polymer synthesis

First Place, Morning Oral Session:
Tyler Toepke-Floyd
Emission reduction using an activated carbon supplement

Honorable Mentions, Morning Oral Session:
Mariom Carvajal
What color is the bug? Ontogenic coloration changes in Ditomotarsus hyadesi (Insecta: Heteroptera: Acanthosomatidae)

Troy Wright, Michael Winther, and Yue Xu
Calculation of life cycle cost of nanoscale zero-valent iron

First Place, Afternoon Oral Session:
Houda Abdelrahman
Extended hypoxia in the alfalfa leaf-cutting bee increases adult survival but causes sub-lethal effects

Honorable Mentions, Afternoon Oral Session:
Samantha Day and Malorie Midtaune
A content analysis of sex roles: A journal of research, 1975-2014

People's Choice, Poster Presentations:
Kristine Wentworth, Robbie Darling, Austin Foss, Ally Hatcher, and Amy McDonald
#Warsh

People's Choice, Oral Presentations:
Elizabeth Leke
Endothelial nitric oxide synthase protein (eNOS) expression in ovarian follicles: Effects of diet and arginine (Arg)
