

POLICY ON VOTING BY PROXY AT FACULTY MEETINGS OF THE COLLEGE OF SCIENCE AND MATHEMATICS

Approved by the Chairs of the Departments in the College of Science and
Mathematics on January 7, 1988

A proxy vote will be allowed for elections in which the candidate for a particular position has been nominated and the name appears under an agenda item.

Approved by the College faculty on January 14, 1988

A unilateral proxy (in which the absent faculty member gives full voting rights to the person carrying his/her proxy vote) is allowed with the requirement that the person carrying the proxy may only hold one proxy.

Approved by the College faculty on March 1, 2005

Any faculty member holding the right to vote who is unable to attend a college faculty meeting may designate any faculty member within the college to take his/her place at that meeting. The faculty member's signed notification of the proxy shall be presented to the Dean or a designated representative prior to the start of the meeting, and the assembly shall be notified of the proxy. One faculty member may carry only one proxy. The proxy can vote on any and all issues that arise during that meeting.
