My classes were already outlined for this semester of the program.

Basically, act like a person with alzheimer
I have before but didn't this semester
My advisor is awful
In the pharmacy program my classes are set for me to take.
The college of pharmacy says we can't speak to our advisors about registering for classes
i'm able to decide on my own
In pharmacy school, curriculum provided for me.
Advisors suck at making schedules
It is hard to see them

They were never helpful and made me feel like an inconvenience

Because my advisor didn't show up, even after we confirmed via email (Okigbo). So I had to meet with the head of the department to get registered.
I already know what classes to take and when. I don't think my advisor looks at my transcript or knows what classes I have taken.
Our Dept. has pre-made requirements sheets that are easy to follow.
I met with him earlier in the year and HE gave me suggestions then.
Online, advisor has never advised
I do not see the need
My advisor is busy and important and often doesn't have time for me. If I email him I sometimes don't get a response for up to six weeks. I just figure it out on my own, it's not a big deal.

Advisor doesnt know enough about this school or its requirements to be helpful in helping me.
This is my last semester of college, so I knew what I needed to take.
I've had the classes planned out since freshman year. The department does a good job of giving a list of what I need to graduate. And if I do have questions I just go to the person who would know instead of going through the advisor when they're just gonna ask the person who knows anyway.
