## Action Items:

- Met with former year's chair Alissa Kuntz and former committee member Wendy McCrory for the background of the committee: what was its purpose; what types of events were supposed to be held/have been held. Overall the purpose of the committee is to get the campus community to engage with itself and other local communities by donating time and energy to support non-profits and organizations within our community. This committee has also supported other committees by extending time to their efforts.
- We met 2-3 more times throughout the year to decide on what events/charities to plan and host.
- It was discussed that the campus engagement committee would take over the monthly charity drives created by the executive committee. This went into effect as of February 2019.
