Clinical Services

Student Health Service provides preventative, acute and chronic care to enrolled and eligible students. Our team of highly qualified professionals support the academic success of a diverse student population in an atmosphere of health and wellness through promotion, prevention, education and medical treatment. Our licensed health care professionals include:

- Physicians
- Nurse practitioners
- Nursing staff
- Medical technologists (Laboratory)
- Pharmacists
- Radiologic technologist (X-ray)

Pharmacy

Students do not need to be a Student Health Service patient to use the pharmacy. Existing prescriptions are transferrable and new prescriptions can be filled right here on campus. Our licensed pharmacy staff also can provide assistance in selecting one of the many over-the-counter medications that are available.

The pharmacy can process prescription claims with most health insurance companies. Questions related to prescription insurance coverage should be directed to the student’s health insurance company. For questions related to prescription transfers, contact the Student Health Service pharmacist at 701-231-7332.

The mission of Student Health Service is to provide access to quality health care while promoting overall student well-being.
Health Promotion

Through peer education, awareness campaigns, programs and presentations, NDSU Health Promotion engages with the broader campus community to inform, educate and empower students to make healthy decisions that enhance their success and well-being. We envision NDSU as a health-promoting campus characterized by a culture that improves and sustains the well-being of its students and community. For questions regarding health promotion, call 701-231-8560.

Substance Abuse Prevention

NDSU is a dry campus. That means the State Board of Higher Education and NDSU prohibit the possession, sale, dispensation or consumption of alcohol on campus property – even by individuals who are 21 or older. NDSU complies with all state and federal laws prohibiting the use of illicit drugs on campus – including marijuana.

All first-year NDSU students are required to complete Alcohol eCHECKUP TO GO, a brief interactive online activity that provides personalized feedback regarding the use of alcohol. Visit www.ndsu.edu/studenthealthservice > “Substance Abuse Prevention” to complete the requirement.

The programs related to Substance Abuse Prevention educate students, families and the NDSU campus community about the risks associated with substance use; communicates clear messages about the negative consequences of high-risk use; and supports on-campus, late-night activities. For questions regarding Substance Abuse Prevention, call 701-231-5131.

Sexual Assault Prevention and Advocacy

The Sexual Assault Prevention and Advocacy program creates, coordinates and implements awareness and prevention programming and educational efforts regarding sexual assault, sexual misconduct and relationship violence. Advocacy and support referrals are provided for individuals reporting incidents of sexual assault, sexual misconduct and/or relationship violence.

All incoming and transfer NDSU students are required to complete mandatory preventative education as required by the Violence Against Women Reauthorization Act (VAWA). “We Take a Stand” is an interactive session focused on sexual assault, relationship violence, stalking and how all NDSU students can take part in making our campus community safer. Visit www.ndsu.edu/studenthealthservice > “Sexual Assault Prevention and Advocacy” for requirement information. For questions regarding Sexual Assault Prevention and Advocacy, call 701-231-5733.
Immunization Requirements

In accordance with North Dakota State University policy, the following immunization documentation is required. This documentation must be submitted by August 1 for the fall semester, by January 1 for the spring semester and by May 1 for summer sessions.

**MEASLES, MUMPS AND RUBELLA (MMR)**
- Two documented doses after first birthday (must be at least 28 days apart)
- Positive MMR titer (a blood test to test immunity) results with lab values are acceptable to prove immunity

**MENINGITIS VACCINE (MENINGOCOCCAL DISEASE)**
- Students 21 years of age and younger must provide documentation of immunization after age of 16.
- Meningitis-B does not meet this requirement.

**TUBERCULOSIS (TB)**
- Any student who has lived in or traveled to a high-incidence country for more than 30 days should complete screening within one week of returning to the United States.
- International Students are required to be evaluated by Student Health Service to identify country of origin and complete necessary screening within one week of arrival on campus.

For questions regarding immunizations or TB testing, call 701-231-7331, email ndsu.immunizations@ndsu.edu or go to www.ndsu.edu/studenthealthservice/immunizations.

---

**Student Health Portal**

To log in, use your Blackboard username and password. Through the portal you are able to:
- schedule an appointment
- upload, view and print immunization history
- complete pre-visit forms
- receive or send secure patient-provider messages
- other dietary-related questions

**Dietitian**

There are no additional charges for dietitian consultations for enrolled and eligible students. Students may schedule a consultation with the licensed registered dietitian to discuss any of the following:
- diabetes (type I and II)
- eating behavior concerns
- food sensitivities / allergies
- healthful eating
- high blood pressure
- weight management
- other dietary-related questions
NDSU does not discriminate in its programs and activities on the basis of age, color, gender expression/identity, genetic information, marital status, national origin, participation in lawful off-campus activity, physical or mental disability, pregnancy, public assistance status, race, religion, sex, sexual orientation, spousal relationship to current employee, or veteran status, as applicable.
