Questions, thus far?

IT Security:
Protect yourself and others

NDSU INFORMATION TECHNOLOGY

Protect Your Accounts

- Passwords
  - Make passwords long and strong
  - Unique account, unique password
  - Keep passwords safe
- Using public computers
  - Use secure sites when accessing personal info
  - Ensure “remember me” is unchecked
  - Log off when finished

Protect Your Devices

- Password-protect or lock
- Regularly update…
  - Operating system
  - Software, applications
- Install anti-virus
  - Free, recommended options for personal use
    - Microsoft Security Essentials (Windows)
    - ClamXav (Mac)
- Back up your data

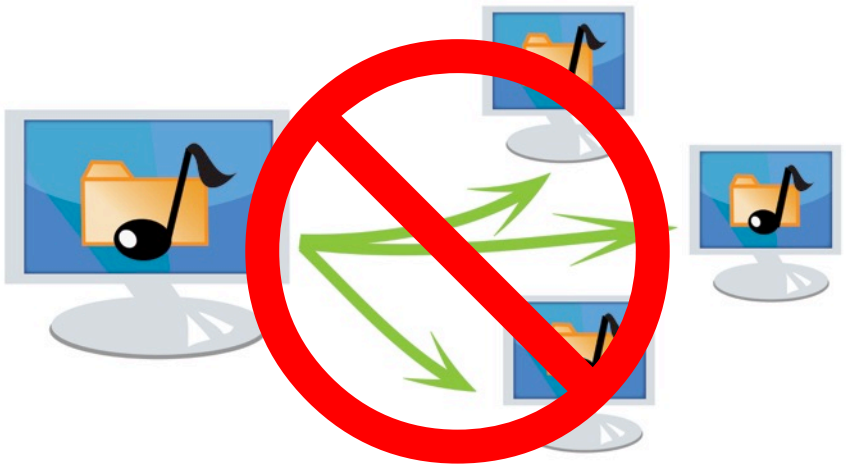
Beware of “Phishing” Scams

- Cybercriminals attempt to steal money, information
  - Don’t reveal personal or financial information in an email.
  - Verify the original sender by examining the sender’s address carefully.
  - Check for spelling and grammar errors.
  - Carefully examine hyperlinks.
  - Check for threatening language.
  - Consider whether the offer is too good to be true.

No one from NDSU will ever ask for your password by email

Use technology responsibly

- Illegal sharing/downloading copyrighted music, movies, software
  - Strictly prohibited; it can be detected
  - Students have paid thousands of dollars in fines to the recording industry
  - Remove peer-to-peer programs before coming to campus



Acceptable Use Policy

- Policy governs use of computers at NDSU
  - Copy in your folder
- Do not use technology to…
  - Harass, threaten, interfere with others
  - Plagiarize or steal another person's work
  - Send inappropriate material
